

# Terms & Conditions

- A deposit is required for every appointment.
- The price of the deposit may vary and depends on the design, the size of the design and the time needed to finish the tattoo. Deposits vary between €25 ~ €200.
- This deposit is non refundable.
- Touch-ups need to be scheduled between 6 to 12 weeks after your tattoo session. If you plan a touch-up session within 12 weeks after getting your tattoo, we only charge our standard appointment fee of EUR 25,-. If the appointment for a touch-up is scheduled after 3 months, a fee will be charged for the session.
- An appointment must be canceled/rescheduled at least 48 hours in advance, otherwise you risk losing your deposit and will have to make another to set a new date.
- The design will be sent to you at earliest 2 days before the session for approval or adjustments.
- If you are unable to attend, please let us know 48 hours in advance. If this does not work, you will lose your deposit and you will have to make a new deposit to schedule an appointment.
- Our artists are always on time, prepared and take their time for every customer. This is why it's important that you are on time for the session because of the preparation needed to make sure your tattoo is amazing!
- Sometimes life gets in the way, and as a result you are late to your appointment. This is understandable. However, we do value our time. At the Parlour, we take the time to prepare for the easy flowing session and get you in a relaxed and good mood before we start. To compromise, we will wait 20 minutes before canceling your appointment. If you're over 20 minutes late, the appointment is automatically canceled and you'll lose your deposit. In order to get another appointment, you'll have to make a new deposit.
- If you think you are going to be late, let us know as soon as possible.
- The agreed price is determined on the basis of previous discussions. Adjustments to the tattoo at the Parlour can cause the price to change due to preparations, supplies & time. It can also cause the session to be rescheduled if there is too much change, due to preparation or time available in the agenda.

## How do I prepare?

- Don't drink alcohol 48 hours before your session. Alcohol stays in your system for 72 hours and thins your blood, which can make for an uncomfortable session
- Take a shower before you come to your session.
- Make sure you get enough sleep the day before.
- Get a good breakfast/lunch/dinner before your session.
- Bring candy or snacks for yourself if you have a long session
- You don't have to shave beforehand, we'll do it for you
- We pride ourselves in having great playlists, but take headphones with you if you like to enjoy your own music
- If you are pregnant or using antibiotics, please let us know beforehand.
