Conference Program of AlgaEurope 2022 is NOW available!

After two years of online editions, AlgaEurope returns to a physical conference and will take place from 13 – 15 December 2022 in Rome, Italy.

This year the organizers received a record number of 289 abstracts. Based on those abstracts, the conference program was created which embraces the most innovative and relevant algae topics of today.

The Conference Program includes presentations from Keynote Speakers and more than 15 different sessions. The topics range from Physiology, Food, Feed, Cosmetics up to Bioremediation, Biomaterial, Process and many more. In the plenary sessions, algae experts from various institutes and companies will share their expertise and insight into the algae industry. Moreover, you have the possibility to check out more than 100 poster presentations and chat with the authors about their projects.

The organizers of AlgaEurope are very pleased to welcome outstanding speakers as Paul G. Falkowski from Rutgers The State University of New Jersey, Sammy Boussiba from Ben Gurion University, and Alison Smith from University of Cambridge, who have made an amazing contribution to the development of the Algae Biomass sector.

Additionally, a trade show with around 20 companies takes place during the three days of the conference. The companies including Algalif, SCHOTT, FluidAir and Microphyt will present their projects, bioreactors, processing mechanisms for algae and much more. If you want to improve the brand visibility and establish new connections of your company, you are welcome to book a table top. A few table tops are still available.
