

Make-to-Stock - Process Manufacturing Based on Production Order (2UG)

This scope item supports the following processes:

Make-to-Stock - Process Manufacturing Based on Production Order

Start from CE2105, the default Best Practice content is based on event-based result analysis for new customer install and add new country only, rather than previous period-end posting. For existing customers (who activated content before 2105), the default remain unchanged to Periodic closing BEI.
