Coffee China imports by value China coffee market grow bigger

The latest updates by DCCChina.org

Coffee imports to China by value

In 2021, China imported around **1.68** million 60-kilogram bags of **green coffee beans**, in comparison, **soluble coffee** import volume in China amounted to around **1.82** million bags in the same period, according to statistics of China total coffee import volume in 2021.

In 2020, China imported US\$**310M** (in 2019: US\$**269M**) of **coffee**, the country became one of the largest importer of coffee in the world. At the same year, coffee was one of the most imported products in China.

Coffee bean main suppliers to China are Malaysia (\$51.7M), Vietnam (\$37.1M), Colombia (\$26M), Brazil (\$24.6M), and Italy (\$23.9M).

Coffee drinking - an era of speedy expansion in China

Today, in regard with coffee consumption, China is a raising star, the numbers of Chinese coffee consumers increased noticeably, the data indicated that coffee consumption rates in China are growing at 30% a year, compared to an international

rate of 2% (SPR coffee) in the last ten years, coffee drinkers' number grown noticeably in China.

Drinking coffee comes into an era of speedy expansion in China. To the degree that beverages consumption, drinking coffee is like drinking tea for most younger Chinese, it is a daily drink. According to data, in recent years, the per capita coffee consumption in China was from **6.2** cups raised to **7.2** cups. Today it is upswing to about 10 cups. Since China coffee consumption is scaling through main hotels, restaurants, thousands, and thousands local coffee bars, supplying coffee materials has become challenging, raw coffee beans China imports also keep on climbing.

In general, everyday, a new coffee shop opened in local China, according to the China coffee market insiders. Noticeably, the local Chinese coffee shops keep creative in the larger cities, such as Beijing, Shanghai, and Guangzhou. Coffee consumption in local China has been the minimum impacted by the on-going pandemic, even in conjunction by severe lockdown days, coffee shops connected with consumers by offering home delivering service, bringing warm coffee to the front door steps, hence, instant coffee sales not much interrupted by the pandemic, the demand for coffee continues to grow, meanwhile, international coffee brands, Starbucks and Nestle, have performed rather well in Chinese market, especially instant coffee consumption increased.

The instant coffee sector seized a substantial market share due to its suitability. It is expected to achieve distinction in the market during the forecast period, due to the accessibility it provides to customers. Consumers discover it simple to select their desired brands since the large assortment of product preferences accessible.

China has more coffee drinkers than ever, although China is a land of tea, a nation full of passionate tea drinkers, however, in the last ten years, coffee consumption has grown a staggering **1,032%**. China coffee demands increasing, enthusiastic coffee drinkers are not less than tea drinkers in China, in recent years, the country coffee consumption continues expand its horizons. Today, China coffee market grow bigger, as coffee sector insiders look at China as a new rising star in coffee consumption, now the country is one of the most promising coffee markets. The coffee China market is forecast to see a CAGR of **10.42%** throughout the projected period 2022-2027, according to a related report.

Coffee beans China imports raised substantially

China is the largest importer of raw coffee beans, and imports most of its raw coffee beans from United Kingdom, Italy, Vietnam, Malaysia, Brazil, Columbia, Indonesia, Guatemala, and Ethiopia. The total raw coffee beans import into China remained

constant in recent years, with the highest total import in 2018, reaching **294.26** million US dollars.

Coffee beans average China import price (US/per ton.) in recent years:

- in 2017 (USD 4,005.41 per ton)
- in 2018 (USD 4,474.38 per ton)
- in 2019 (USD 4,134.05 per ton)
- in 2020 (USD 4,476.09 per ton)
