Max. 10.3 ml.
Max. 11.3 ml.
Max. 11.3 ml.
Max. 11.3 ml.

# Feed Chart Soil - Without Extra CO2

Important: This Feed Chart is just a guide.
It is possible to deviate.
First add A to the water then B. Continue until PPM is reached.
Use equal quantities from A and B!

### **GROW BASE FEED**

Our 2 part grow base feeds are highly concentrated and provide your plants with all the essential macro and micro nutrients needed for excellent plant growth. Our food-grade formula is free of heavy metals and PGRs.

#### **ADVANTAGES:**

- > Stimulates maximum growth
- Increases strength and health throughout the growth phase
- PPM 750 1000
- Suitable for every irrigation system
- Doptimal absorption by the plant
- No residue

Available in: 1.05 Qt/1.32 Gal/2.64 Gal/5.28 Gal

### **BLOOM BASE FEED**

Our 2 part bloom base feeds are highly concentrated and provide your plants with all the essential macro and micro nutrients needed for excellent bloom. Our food-grade formula is free of heavy metals and PGRs.

#### **ADVANTAGES:**

- Stimulates maximum bloom
- Increases strength and health throughout the bloom phase
- PPM 800 1150
- Suitable for every irrigation system
- Doptimal absorption by the plant
- No residue

Available in: 1.05 Qt/1.32 Gal/2.64 Gal/5.28 Gal

### **ROOT STIMULATOR**

Our root stimulator stimulates extrordinary root growth and contains several vital minerals to increase your plants resistance against fungi and bacteria. Our food-grade formula is free of heavy metals and free of PGRs.

#### **ADVANTAGES:**

- Stimulates extraordinary root growth
- Improves cell division, cell elongation and nutrient transport
- Increases nutrient absorption
- Contains vital micronutrients
- > Suitable for every irrigation system
- Optimal absorption by the plant
- No residue

Available in: 8.45 fl oz/1.05 Qt/1.32 Gal/2.64 Gal/5.28 Gal

### **NUTRIENT ENHANCER**

Our nutrient enhancer helps with nutrient uptake, soil structure, and resistance against diseases. Our food-grade formula is free of heavy metals and free of PGRs.

#### **ADVANTAGES:**

- Improves soil structure
- Promotes bacterial life
- Stimulates the Cation Exchange Capacity (CEC)
- Increases resistance against fungi and bacteria
- Contains Humic and Fulvic Acids
- DODA OPTION OF THE PLANT
- No residue

Available in: 8.45 fl oz/1.05 Qt/1.32 Gal/2.64 Gal/5.28 Gal

#### **BUD BOOSTER**

Our Bud Booster gives your plants an explosive hardening of the blossom. It enhances sugar production and increases your plants' resistance against diseases. Our food-grade formula is free of heavy metals and free of PGRs.

#### **ADVANTAGES:**

- Stimulates an explosive hardening and growth of the blossom
- > Improves strength and resistance against diseases
- Increases the amount of glucose produced
- Optimal absoroption by the plant
- Suitable for every irrigation system
- No extra PK 13/14 needed
- No residue

Available in: 8.45 fl oz/1.05 Qt/1.32 Gal/2.64 Gal/5.28 Gal
