

5th JOINT CONGRESS for CERAMIC IMPLANTOLOGY

October 10 - 11, 2025
Kreuzlingen | Switzerland

EXCELLENCE IN ACTION –
1 STAGE. 4 THEMES. **20 AMBASSADORS.**

Dear congress participants,

As the current President of ISMI e.V. (International Society for Metalfree Implantology), I am delighted to once again be able to present to you the highest level of expertise in the field of dental ceramic implantology on stage and in the audience.

Last year, we introduced a new format with great success, which we are continuing for the 5th edition of JCCI 2025: The 20 speakers are selected exclusively from the circle of SDS Ambassadors. This decision guarantees practical knowledge and outstanding expertise straight from the source.

We are convinced that this congress will set a new benchmark and offer more directly applicable knowledge for your everyday practice than ever before. Don't miss the "5th JOINT CONGRESS for CERAMIC IMPLANTOLOGY 2025"!

Your Dr. Karl Ulrich Volz
President ISMI e.V., Congress Director JCCI

JCCI 2025: INTRODUCING THE SDS AMB SPEAKERS

We are pleased to introduce you to the outstanding SDS AMBASSADORS who will be revealing the innovative techniques they have used to maximize their success at the highest level at this year's JCCI. These excellent SDS AMBASSADORS have achieved impressive results with their expertise and dedication and are ready to share their secrets. Stay tuned for inspiring presentations.

Congress Director

DR. KARL ULRICH VOLZ, *Kreuzlingen, Switzerland*

Dr. Karl Ulrich Volz is the founder and owner of the world market leader in ceramic dental implants, SDS SWISS DENTAL SOLUTIONS, and the associated on-site clinic SWISS BIOHEALTH CLINIC in Kreuzlingen/CH. With over 30.000 personally placed ceramic implants and over 25 years of experience in ceramic implantology, he is considered the pioneer of this discipline. Since 2017, Dr. Ulrich Volz, as well as other renowned speakers and experts, have been passing on their knowledge on the topics of biological dentistry, ceramic implants and blood concentrates at the SWISS BIOHEALTH EDUCATION CENTER in Kreuzlingen in the form of an exceptional, modern and constantly optimized continuing education program. The unique treatment methods and the worldwide unique surgical concept form the core of all continuing education opportunities.

“From Setback to Breakthrough: The Path to Perfection in Metal-Free Implantology“

Dr. med. dent. Fabian Schick is a specialist in biological dentistry and ceramic implants. Born and raised in Ehingen (Danube), he studied dentistry at the Ludwig Maximilian University in Munich. After completing his doctorate and various further training courses, he now works in a practice clinic for integrative, biological dentistry in Munich. Dr. Schick is a certified implantologist and a member of the International Society for Metalfree Implantology and the International Academy of Ceramic Implantology. His publications deal with the connection between dentistry and chronic inflammatory autoimmune diseases.

DR. FABIAN SCHICK, *Munich, Germany*

“The Future of Biological & Sports Dentistry: Elevating Performance, Health & Longevity“

DR. ROBERT BAUDER, *Kitzbühel, Austria*

Dr. Robert Bauder is an experienced dentist with over 25 years of expertise in holistic and aesthetic modern dentistry. His main areas of practice include biological dentistry with focal and interference field diagnostics and restorations, aesthetic metal-free all-ceramic restorations, ceramic implants and implantology since 1998, periodontology, CAD-CAM ceramic immediate restorations, invisible brace since 2003 (platinum users), jaw detox, amalgam restorations, private dental emergency service and the treatment of anxiety patients. With more than 18 years of experience in working with ceramic implants, Dr. Robert Bauder offers comprehensive and high-quality dental care.

“The Performing Dentist: Live It. Teach It. Lead It.“

DR. DOMINIK NISCHWITZ, *Tuebingen, Germany*

Dr. Dominik Nischwitz is one of the world's leading specialists in biological dentistry and ceramic implants. He is the current Vice President of ISMI (International Society for Metal Free Implantology), whose mission is to help as many people as possible achieve optimal, metal-free oral health. As an international speaker, he regularly shares his expertise at congresses to establish biological dentistry as the new standard in the industry. Together with his father, Dr. Nischwitz founded DNA Health and Aesthetics, Centre for Biological Dentistry in Tuebingen in 2015.

“A look into the future - artificial intelligence, biological dentistry and ceramic implants“

DR. MARIO PARRA, *Alicante, Spain*

Dr. Mario Parra is the pioneer in the implementation of THE SWISS BIOHEALTH CONCEPT in Spain and is the first and only Spanish dentist to obtain the certification of specialist in biological dentistry and expert in ceramic implants, recognized by international associations such as ISMI in Europe (International Society for Metalfree Implantology) and IAOCI in the United States (International Academy of Ceramic Implantology). In addition, he was the third in Europe and the first and only in Spain to receive the AMBASSADOR certification for excellence in ceramic dental implantology.

“Full Arch, fully guided, removable, metal-free dentures with ceramic implantst“

MORITZ KNEER, *Kreuzlingen, Switzerland*

Moritz Kneer is head of the dental department of the SWISS BIOHEALTH CLINIC, a specialist in biological dentistry and ceramic implants and the first dentist to treat exclusively and consistently according to the SWISS BIOHEALTH CONCEPT since the start of his professional career. In addition to his work as a surgeon, Moritz Kneer works as a speaker at the SWISS BIOHEALTH EDUCATION CENTER and is also an international speaker on behalf of SDS. He places 800+ implants a year, has been a specialist since 2020 and an SDS Ambassador since 2023.

“Recognize your own limits! How to avoid mistakes - can you avoid them?“

DR. TOBIAS WILCK, *Hamburg, Germany*

Dr. Tobias Wilck, a specialist in oral and maxillofacial surgery, can look back on an impressive career. Born in Hamburg in 1967, he studied human medicine at the University of Hamburg and gained experience in Kingston (Jamaica) and Vienna before completing his dental studies in Hamburg and Tuebingen. His specialist training took him to Hamburg, Tuebingen and finally to Krefeld-Uerdingen, where he worked as a senior consultant. Dr. Wilck is certified for plastic-aesthetic surgery and implantology and has been involved in humanitarian missions in Vietnam since 2010, where he treats children with facial disabilities, particularly cleft lips, jaws and palates. As a member of the German Society of Oral and Maxillofacial Surgery (DGMKG), Dr Wilck brings a wealth of specialist knowledge and experience to the treatment of his patients.

“Ceramic implants and prosthetics: esthetics, biocompatibility and function in everyday clinical practice“

DR. GREGOR HOČEVAR, M.SC., *Ljubljana, Slovenia*

Dr. Hočevar graduated from the Faculty of Medicine at the University of Ljubljana in 1996, where he was awarded the Prešeren Prize and the Oražen Prize for the best graduate of the generation. He founded his own dental practice in 1999 and continued his education in Slovenia and abroad. In 2017, he became the first dentist in Slovenia to receive the title of specialist in biological dentistry and ceramic implants after completing two years of postgraduate training in Germany and Switzerland. In the same year, he opened the private biological dental clinic Center Hočevar, where he practices metal-free dentistry with five other doctors. In the academic year 2021/2022, he successfully completed the 2nd Level University Master in Oral Implantology at the International University of Health Sciences in Rome with the topic “Immediate Ceramic Implant Placement in the Aesthetic Zone” under the mentorship of Prof. Dr. Covani.

“Interface: Where Prosthetics Meet Biology on Ceramic Implants“

DR. CODY KRIEDEL, *North Liberty, IA, USA*

Dr. Cody Kriegel is the founder of Vios Dental (formerly Corridor Dental). An expert in ceramic implantology, Dr. Kriegel has worked with thousands of patients in need around the world to achieve optimal health with unique, customized, dental treatments. As the only accredited biological dentist in Iowa, Dr. Kriegel’s philosophy focuses on a non-toxic, minimally invasive and biocompatible approach to dentistry. A dedicated doctor committed to continuing education, Dr. Kriegel completed an ICOI (International College of Oral Implantology) fellowship, an IAOMT (International Academy of Oral Medicine and Toxicology) fellowship, and has completed more than 400 hours of continuing education in holistic health.

““Collapse of the socket” - prevention and management of bone loss during immediate implant placement with SDS ceramic implants“

DR. ALEXANDER SOBIEGALLA, *Hemsbach, Germany*

Dr. med. dent. Alexander Sobiegalla is a renowned dentist and specialist in biological dentistry and ceramic implants. He holds a Master of Science in Oral Implantology and a Master of Science in Oral Periodontology from the Eberhard Karls University in Tuebingen. After his license to practice dentistry in 2008, he received his doctorate in dentistry and has since specialized in implantology, for which he is certified. Dr. Sobiegalla has completed important further training, including several years of training as a SWISS BIOHEALTH EDUCATION specialist, a DGI curriculum in implantology and DVT expertise.

“Predictable Treatment with Swiss Dental Solution Zirconia Implants in the Aesthetic Zone“

DR. LUIS ALICEA, *Orlando, FL, USA*

Dr. Luis A. Alicea studied at the University of Puerto Rico, School of Dentistry. There he completed his master’s degree and residency in prosthodontics, focusing on the placement and restoration of dental implants. He has taught as an adjunct professor in the departments of Research and Restorative at the University of Puerto Rico, where he remains an adjunct professor ad honorem. Dr. Alicea also completed additional training for certification as an IV sedation provider at the University of Alabama, Birmingham.

“Action, accountability and responsibility as a biological dentist“

DR. JIGAR GANDHI *North Massapequa, NY, USA*

Dr. Jigar S. Gandhi graduated from the State University of New York at Stony Brook School of Dental Medicine in 2009. He graduated at the top of his class and was one of four from his graduating class to be inducted into Omicron Kappa Upsilon. This is a national dental honor fraternity where membership is based on excellence in scholarship, exemplary character traits and potential qualities for future professional growth and achievement.

“The correlation between high caliber dentists and professional athletes: Why we need to care for our bodies and mind at a high level“

DR. HOLLY THOMPSON, *Shoreview, MN, USA*

Dr. Holly Thompson received her doctorate from the University of Minnesota School of Dentistry. She is passionate about biological approaches to oral surgery and has advanced training in the placement of zirconia (ceramic) dental implants. She has been recognized as one of only 10 USA Ambassadors for Swiss Dental Solutions and travels around the country teaching other doctors how to place SDS ceramic implants. Dr. Thompson holds a fellowship from the International Dental Implant Association and the Zirconia Implant Society. She is a certified Naturopathic Doctor through the American College of Integrative Medicine & Dentistry as well as a certified holistic practitioner. Dr. Thompson tries to hold continuing dental education events every few years.

„Superior in the Anterior“

DR. ILIAN DARGEL, *Castricum, Netherlands*

Dr. Iljan Dargel’s expertise lies in biological dentistry; he improves the overall health of patients by replacing dental disorders with healthier alternatives. Dr. Dargel graduated from ACTA Amsterdam in 2005 and has been recognized as an implantologist NVOI since 2014. He has been a specialist in biological dentistry and ceramic implantology (ISMI/IAOC) since 2020.

“Stability in challenging situations! How to generate maximum insertion torque when the bone is too soft or too small.“

DR. THORE SANTEL, *Essen, Germany*

Dr. Santel is a renowned oral surgeon and specialist accredited by ISMI and IAOC in biological dentistry and ceramic implants, directing his own dental center in Essen (NRW). His treatment philosophy is grounded in a deep understanding of individual needs and the well-being of his patients. Besides surgical precision, he places great emphasis on comprehensive care aimed at enhancing the holistic health of his patients. As an expert in biological dentistry, Dr. Santel is passionately dedicated to using biocompatible materials and methods that positively affect his patients’ welfare, particularly with high-aesthetic ceramic dental implants, which are valued for their biocompatibility and natural appearance. Dr. Santel regularly conducts training and lectures for colleagues. In summary, Dr. Santel offers a combination of advanced dental technology, a clear commitment to natural treatment materials, and a patient-centered treatment philosophy, for patients who are highly conscious of maintaining their health.

“Evidence-Based Clinical Strategy. Avoid unnecessary complications... don’t be a hero“

DR. ANDRÉS FERNÁNDEZ, *San Jose, Costa Rica*

Dr. Fernandez is a specialist in oral and maxillofacial surgery and is dedicated to improving the oral health of his patients and correcting dental, craniofacial and maxillofacial deformities. He graduated in Dentistry from the University Latina of Costa Rica and obtained a Master’s degree in Oral and Maxillofacial Surgery from the Javeriana University of Colombia in 2005. Dr. Fernandez has participated in various fellowships and continuing education programs in dental implants, including those at Pennsylvania State and Harvard University. His leadership skills are evident in his work as past president of the Costa Rica Academy of Oral and Maxillofacial Surgery. Dr. Fernandez is also involved in several educational foundations and works with the AO Foundation in Switzerland. In addition, he is recognized as one of the world’s leading educators in the field of ceramic implantology.

“Restorative options for full arch rehabilitations on zirconia Implants“

DR. ALEJANDRO MORA, *San Jose, Costa Rica*

Dr. Mora is a highly experienced and qualified dentist who has achieved many notable successes throughout his career. He received his degree in Dental Surgery from the Universidad Latina de Costa Rica in 2001 and his specialization in Oral Rehabilitation and Aesthetics from the Universidad de Chile in 2005. In 2013, he graduated from the University of Pennsylvania with a Dental Implant Continuum Certification. Dr. Mora is a member of several prestigious dental organizations, including the American Academy of Implant Dentistry and the American College of Prosthodontists. He is also SMART certified for the safe mercury amalgam removal technique and is a member of the International Academy of Oral Medicine and Toxicology and the Colegio de Cirujanos Dentistas de Costa Rica.

“Optimal Practice Performance – Harnessing the Horsepower of Your Team“

DR. KELLY BLODGETT, *Portland, OR, USA*

Since Dr. Kelly Blodgett received his license to practice dentistry in 1999, he has positively impacted hundreds of thousands of people around the world through treatment at his clinic. Over the past 25 years, Dr. Blodgett has given hundreds of lectures on advanced dental concepts and has been a guest on dozens of podcasts, webinars and news articles. As the founder of Blodgett Dental Care in Portland, OR, Dr. Blodgett has built a practice that is considered one of the most desirable dental tourism destinations in the world. BDC’s uniqueness stems from both the respect he shows his patients as individuals and the artful fusion of biology and technology. Dr. Blodgett is committed to ensuring that all dental practices adopt biological practices and develop communication skills that respect patient autonomy.

“Success factors in ceramic implantology“

DR. JOHANNA GRAF, *Straubing, Germany*

Dr. Graf is a member of the International Society for Metal Free Implantology (ISMI), chairwoman of the dentistry working group of the German Society for Environmental and Human Toxicology (DGUHT e. V.) and practices as a dentist with a focus on ceramic implants, surgical removal of (wisdom) teeth and interference field diagnostics within the framework of “biological dentistry”, applying environmental dentistry principles from an aesthetic point of view. She is the author of the specialist book “Hotspot Zahn”, author of several specialist articles, co-author of the book “Demenz - Prävention und Therapie” and lecturer in environmental dentistry, biological dentistry and ceramic implants.

“Optimizing Anterior Aesthetics: Leveraging Temporization and Ideal Emergence Profiles in Ceramic Implant Therapy“

DR. YURIY MAY, *Farmington, CT, USA*

Dr. May graduated from the University of Connecticut School of Dental Medicine and completed a residency in GPR at Bronx Lebanon Hospital in New York City. After working in private practice for several years, Dr. May opened his own practice where he focuses on full mouth reconstruction, oral implantology and metal-free dentistry, utilizing the latest techniques and technology in digital dentistry. Based in Connecticut, Dr. May has built a leading ceramic implant practice in the Northeast, focusing on specialized cases of metal-free full mouth reconstruction. He is an accredited member of the International Academy of Oral Medicine and Toxicology, a founding member of the American Academy of Ceramic Implantology, a member of the International Academy of Ceramic Implantology and certified in Integrative Biologic Dental Medicine.

“Where the Rubber Hits the Road - Prosthetics!“

DR. CORBIN POPP, *Littleton, CO, USA*

Dr. Corbin Popp grew up in a small town in Nebraska, where he worked in his father’s dental practice. He was determined and naturally excelled in science and math. His strengths led him to study biochemistry at the University of Nebraska, where he graduated with honors. After performing on Broadway and internationally for 10 years, Corbin went to the Arizona School of Dentistry and Oral Health. After graduating at the top of his class, he was honored by the University of Colorado Anschutz as Resident of the Year. Dr. Popp’s clinical expertise includes surgical treatment of infected root canals, ischemic bone voids/cavities, the Bone Building Augmentation (BBA) concept, placement of zirconia/ceramic implants, and bioesthetic (OBI) full mouth rehabilitation and jaw stabilization.

““P to the 5th“ (proper preparation prevents poor performance)“

DR. JUDSON WALL, *Bountiful, UT, USA*

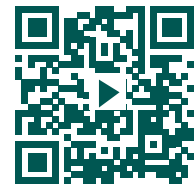

Dr. Judson B. Wall has been practicing dentistry for over 20 years and is an expert in metal-free dentistry, zirconia implants, TMJ dysfunction and sleep therapy. He studied dentistry at West Virginia University and has received numerous awards, including accreditations from the International Academy of Oral Medicine and Toxicology and fellowships from various dental societies. As an internationally sought-after speaker, he trains dentists worldwide in holistic dentistry and organizes training courses in his modern practice in Bountiful, Utah. He is also a reviewer for specialist publications and is committed to children’s dental health, including in the “Give Kids a Smile” program.

Entertainment Factor

Culinary highlights and an exclusive entertainment program make the JCCI unforgettable

“Work Hard, Play Hard” would probably best describe the times outside of the lecture hall and industry exhibition. After attaining knowledge transfer at the highest level, the discerning participants of the JCCI events can expect an experience for all the senses. Be it culinary delicacies, music, top entertainment, good conversations, valuable new contacts or simply a round of foosball, we guarantee a memorable time. Our aim is that all participants not only go home with a toolbox filled with valuable knowledge, but also with enthusiasm and a feeling of being refreshed from the 4th JCCI, as if they had been on vacation!

WHITE
NIGHT
FRIDAY, 5:00 P.M.

Four topics - one goal: Excellence in ceramic implantology

This year's JCCI program is divided into four central thematic blocks, all of which are designed to take your clinical performance to the next level. Each block offers practical insights, concrete solutions and new impulses for your daily treatment routine - directly from those who live it every day: the SDS AMBASSADORS.

ANTERIOR ESTHETICS: TIPS & TRICKS

FAILURES AND HOW TO SOLVE THEM

PERFORMANCE AS DENTIST

PROSTHETICS ON CERAMIC IMPLANTS

The program is ready - the thematic structure is set. You will find an overview on the next page.

PROGRAM 10. FRIDAY

09:00 - 10:00 a.m.	ADMISSION AND VISIT TO THE INDUSTRY EXHIBITION	ANTERIOR ESTHETICS: TIPS & TRICKS
10:00 - 10:40 a.m.	WELCOME AND OPENING DR. ULRICH VOLZ	
10:40 - 11:05 a.m.	DR. ILIAN DARGEL Superior in the Anterior	
11:05 - 11:30 a.m.	DR. LUIS ALICEA Predictable Treatment with Swiss Dental Solution Zirconia Implants in the Aesthetic Zone	
11:30 - 11:55 a.m.	DR. JOHANNA GRAF Success factors in ceramic implantology	
11:55 - 12:15 a.m.	DR. YURIY MAY Optimizing Anterior Aesthetics: Leveraging Temporization and Ideal Emergence Profiles in Ceramic Implant Therapy	
12:15 - 12:30 p.m.	QUESTIONS AND DISCUSSION ROUND	
12:30 - 13:40 p.m.	LUNCH BREAK Lunch, visit to the industry exhibition	
13:40 - 14:05 p.m.	DR. TOBIAS WILCK Recognize your own limits! How to avoid mistakes - can you avoid them?	FAILURES AND HOW TO SOLVE THEM
14:05 - 14:30 p.m.	DR. THORE SANTEL Stability in difficult situations! How to generate maximum insertion torque when the bone is too soft or too small.

16:25 p.m.	END OF CONGRESS	

What visitors say about the last JCCIs

“

JCCI

”

SUSANNE BLOHM *Berlin, Germany*

"So many open, friendly people come together here with inspiring ideas. I believe that biological dentistry is the future and I'm excited to see how it will become mainstream in the future - and how we as a society can really take a big step forward as a result."

DR. SANJANA DHIMAN *Alicante, Spain*

"For me, the JCCI is innovative, new and full of like-minded people. I look forward to this event every time because you learn a lot of new things and make lots of new contacts."

DR. MARTINA MALERY *Bradenton, FL, USA*

"It's fantastic to be here. I'm already well connected via the WhatsApp groups, and now I'm meeting people in person - they become friends, colleagues and mentors. This international yet intimate connection within the industry is great. I would definitely recommend the JCCI - for the networking, the knowledge sharing, the latest research and the live surgeries. It's absolutely unique - you really have your finger on the pulse here."

DR. DIRK DUDDECK *Berlin, Germany*

"I am an exhibitor at the JCCI - not for the first time, and for good reason. Predictable clinical results are, I believe, what most colleagues are looking for here - and what they find in many of the presentations. I particularly like the fact that the focus is broader - on patients and communication."

DR. GRACE VERSHININA *Beverly Hills, CA, USA*

"The JCCI has changed my way of practicing. I can only recommend it - although I have been practicing for many years, I learn something new here every time. It's a very innovative and great format."

DR. TATJANA VERSHININA *Beverly Hills, CA, USA*

"We attend many congresses and conferences in the USA on various dental topics - but this one is really different. This is where you learn the most in the shortest amount of time. I feel like a sponge - I soak up everything, it's incredibly informative."

IMPRESSIONS

Down to the last detail

The JCCI organization team stands for professionalism, smooth processes and cordiality.

The JCCI organization team loves its job and is capable of mastering any challenge! Years of experience and tens of thousands of course participants have made this team probably the best of its kind. Above all, this team has understood that dentists, who are exposed to an enormous workload and pressure during the week, want to experience positive emotions in a stress-free atmosphere on the course days and make many new like-minded friends. To ensure

this atmosphere is not only felt but also seen, great attention is paid to the aesthetic and sensory details. In keeping with the motto "you eat with your eyes", only the best, high-quality and healthy materials are used in the SBE.

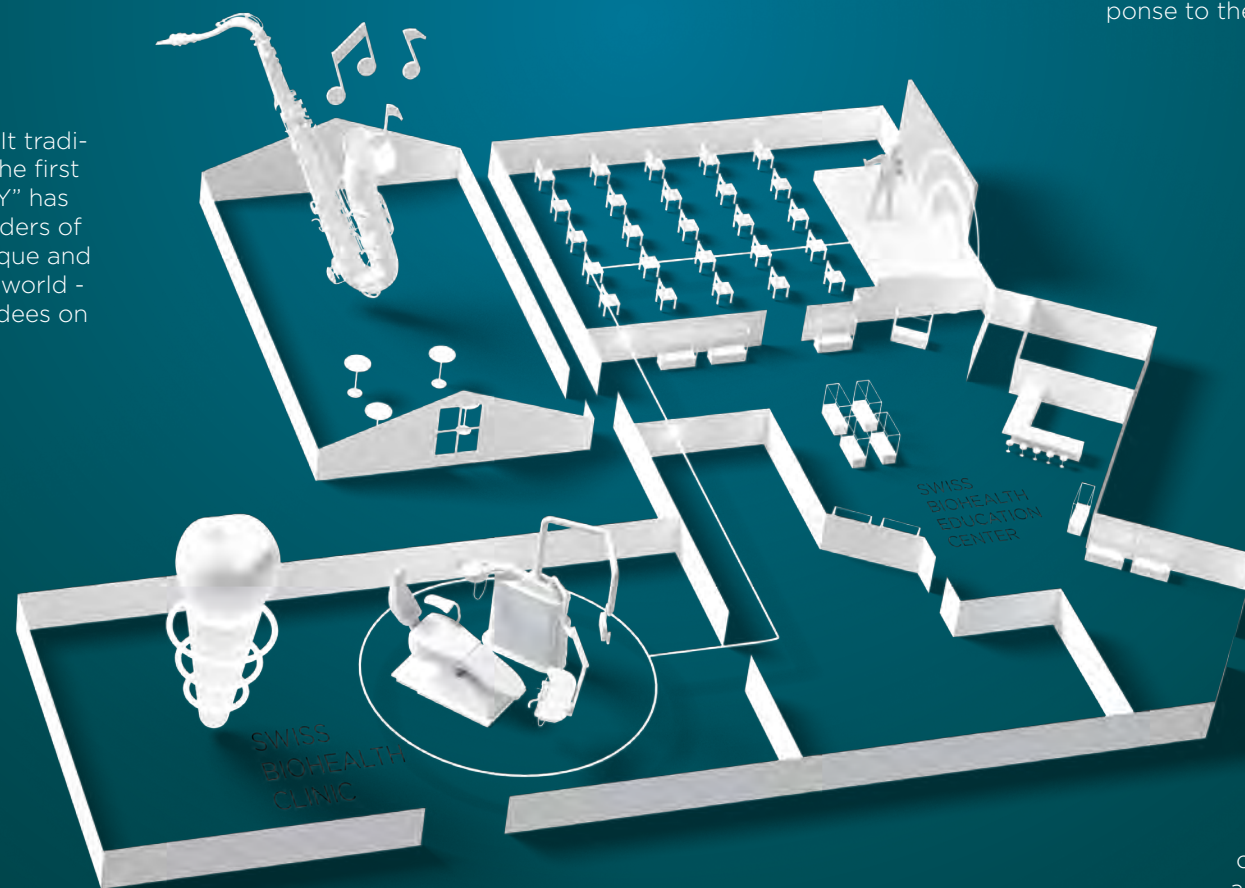

TRANSLATOR

The two experienced simultaneous translators are located in a soundproof booth in the background and "hang" as close as possible to the speakers' lips via loudspeakers and monitors.

LET'S PARTY

The "WHITE PARTY" is not to be missed! It traditionally takes place in the evening after the first day of the congress. The "WHITE PARTY" has now achieved cult status beyond the borders of the country. TomX the Sax, DJ Matt Nautique and others take the participants into another world - where else can you find 90% of the attendees on the dance floor?

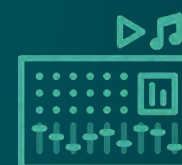

PERFECTLY CONNECTED

The entire organizational and technical team is wired for smooth operation and can communicate with each other via two-way radio at any time

INTERNATIONAL TOP SPEAKERS

We are bringing the industry's top speakers to the JCCI. They will address the most current topics in ceramic implant dentistry and discuss the issues that are most important to dentists today. We took the trouble to ask you, our audience, which topics you would most like to hear at the JCCI. The response to the survey was overwhelming!

CONTROL ROOM

The control room is housed in a soundproof booth outside the room and is staffed by a top competent team. The IT professionals are connected via loudspeakers and separated from the stage only by a glass wall.

INDUSTRY EXHIBITION

The exhibition offers participants an excellent overview of the state of the art in the industry. It also offers excellent opportunities for networking in a relaxed atmosphere.

Head of the congress organization

AYLA TAVIR

Dear congress participants,

In my function as Head of Education, it is my greatest concern to make your participation in our various events and courses unforgettable.

Our team of first-class dentists, top-class speakers from all over the world and Dr. Volz guarantee an inexhaustible portfolio of the latest knowledge far beyond dentistry, both in practice and in theory.

Together with my team, it is also my task to offer you a supporting program that lacks nothing and makes your stay unforgettable.

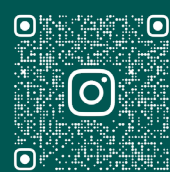

We will be happy to answer any questions you may have and provide you with the best possible support!
