

BOP Pump Stem KIT 60L - ATF

Part Nr.: BP60X-ALA

Description

Designed and manufactured in Australia, the BOP60 Pump Stem Kit comes with both the modular pump stem and an on-demand control nozzle with a 1.5m hose. Multiple pump stems can be used with different fluids to avoid cross-contamination. To function, the stem is operated by the BOP Powerhead (BP20-PH). The pump includes a unique **red nozzle hook** for easy identification.

*Pump stem kit does not include Powerhead or battery.
