

BOP Pump Stem Kit - 60L

Part Nr.: BP60X-OLA

Description

Designed and manufactured in Australia, the BOP60 Pump Stem Kit comes with both the modular pump stem and an on-demand control nozzle with a 1.5m hose. Multiple pump stems can be used with different fluids to avoid cross-contamination. To function, the stem is operated by the BOP Powerhead (BP20-PH).

*Pump stem kit does not include Powerhead or battery.

Package Includes

- 60L Pump Stem Kit with Control Nozzle (BP60X-OLA)
- Instruction manual

Technical Specifications

- Adaptor to suit most 60L drums
- Lubricant range - SAE 0W40 to 75W90
- Delivery rate - Up to 3.5L/min
- Drum size - 60Ltr

Features & Benefits

- Oils from SAE 0W40 to 75W90 – most automotive applications
- Flow rates up to 3.5L/min
- Sealed wetted parts - zero contamination
- On-demand flow control
- No more pumping by hand to reduce fatigue by alleviating fatigue and other WH&S issues.
- Drum Size - Nominal 60 Ltr

Package Includes

- 60L Pump Stem Kit with Control Nozzle (BP60X-OLA)
- Instruction manual
