## Noria Announces Lubrication Training Course In Manchester, UK

We are pleased to announce that Noria Corporation will be hosting a Machinery Lubrication Analysis/Machinery Lubrication Technician I certification training seminar in Manchester, UK on 7-9 November.

For more than 25 years, Noria's experts and instructional designers have been advocating an industry-wide need to establish an effective blueprint for a best-practice-based lubrication program. Machinery Lubrication Analysis/Machinery Lubrication Technician I certification training provides the essentials of proper lubricant application while instilling proven industry methods for selecting, storing, filtering and testing lubricants for improved machine reliability.

### Course Topics

- Troubleshooting lubrication problems
- Lubrication and oil analysis metrics
- Base oils, viscosity index and lubricant consolidation
- Thermal stability
- Air and foam
- Lubricant degradation
- And more!

## FREE Live Webinar

### Driving Reliability With One-Minute Daily Inspections

4 October | 13:00 BST

*Join Noria's Chief Strategic Officer Bennett Fitch for this free live webinar.*

The most important maintenance function doesn't require anything from your toolbox. It may not even be on your PM schedule or lube route.

What it does require are skillful inspections that are rapid, comprehensive and frequent. This 45-minute session will explain how to increase your inspection effectiveness, maximize your time at each inspection point and practice inspections as a real condition-monitoring technique.
