

ISSUE: LIMITED SPACE SOLUTION: SATELLITE LUBE ROOM

When your lubricants are subject to remote or extreme conditions and interior space is limited, OilSafe's Satellite Lube Room offers a stand-alone system with placement flexibility and state-of-the-art features. This convenient storage protects lubricant quality and lifespan by reducing handling errors and controlling the operating environment.

SATELLITE LUBE ROOM

The OilSafe Satellite Lube Room allows you to establish a safe and efficient remote base of operations for storing, dispensing and managing your industrial lubricants. The sturdy steel structure offers a customizable foundation for all your lubrication protection and storage needs. The Satellite Lube Room comes complete with:

- work table
- interior-exterior and emergency lighting
- A/C system
- container ventilator cover
- exhaust fan
- fire suppression tank
- siren
- cord reel
- carbon monoxide alarm
- 200 amp service panel
- spill containment drainage
- electrical shut-off
- emergency exit and secondary emergency exit

It's easy to add an OilSafe Customizable Lubrication Work Center to your Satellite Lube Room. Work Centers feature color-coded steel tanks, each with:

- A dedicated pump/motor/filter
- Integrated 3-way valves - for fill, dispensing and in-tank recirculation
- Integrated oil-dispensing point

Other compatible add-ons include our OilSafe Tote Dispensing Rack, Filter Cart and more.

Available in 20 ft. and 40 ft. configurations.

20 ft. Satellite Lube Room

It can easily be transported with a flatbed tow truck or loaded onto a deck-over goose-neck trailer and pulled by a 3/4 ton truck. Fork slots in the base allow for easy positioning at the job site.

40 ft. Satellite Lube Room

Includes the same great features as the smaller unit, but with twice the interior space. A great option for sites where more storage and work space is needed. Can still be moved around the site with forklift-equipped machinery.

- **Best-in-class reliability practices**
- **Self-contained**
- **Customizable**
- **Fully SPCC compliant**
- **Robust construction**
- **Rapidly deployable**
- **Quick access to lubricants and equipment**
