Cerberus FIT FC360 – addressable fire control panels

1-loop panels - 1 loop or 2 stubs - Number of addresses: max. 126

2-loop panels - 2 loop or 4 stubs - Number of addresses: max. 256

Fire control panel Fire control panel (1L, Compact) FC361-ZZ (1L, Comfort) FC361-ZA - Housing: 402x372x132 mm – Housing: 402x372x211 mm -Batteries: max. 2x 12 V, 12 Ah – Batteries: max. 2x 12 V, 25 Ah Order no.: S54433-C112-A1 Order no.: S54433-C111-A1

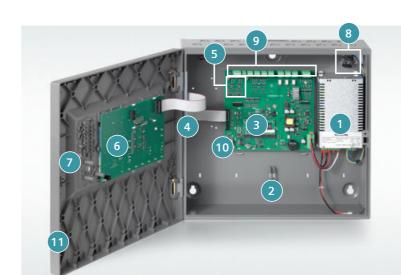

Fire control panel (2L, Comfort) FC362-ZA - Housing: 402x372x132 mm - Housing: 402x372x211 mm Shared properties - Total current capacity: max. 2.5 A - 4 programmable inputs/outputs (DC 24 V/max. 0.1 A and 0.2 A in total) - 3 programmable potential-free relay outputs (DC 60 V/max. 2.0 A) - 2 collective sounder circuits (DC 24 V/max. 0.5 A)

– Auxiliary power output (DC 24 V/max. 0.2 A)

Control unit

Hardware components

L	egend		
1	Power supply	8	Mains fuse
2	Space for batteries	9	Main board conr
3	Mainboard		 – 2 collective so – 24 V auxiliary
4	Output card (4M) (optional)		– 4 programmak
5	Space for RS232/485 module (optional)		 – 3 programmat – Loop connector
6	User interface (PMI)	1	0 Ethernet conne
7	Space for options: – Evacuation module (NL) – LED indicator (32 zones) – Key switch/key switch (Nordic)	1	1 Detachable doc

ounder circuits / outputs able inputs/outputs able relay outputs tor lector

or

nnectors:

- Batteries: max. 2x 12 V, 12 Ah - Batteries: max. 2x 12 V, 25 Al Order no.: S54433-C119-A1 Order no.: S54433-C120-A1

Options

- Visual fire zone indication - Up to 32 fire zones Order no.: S54433-B118-A1

 Independent cont rol of EVAC zone – Acc. NEN 2575 Order no.: S54433-B116-A1

- Standard key switch to provide level 2 (user) access on panel Order no.: \$54433-N113-A1

- Special key switch (Nordic) to provide level 2 (user) access on panel Order no.: S54433-N115-A1

peripheral devices with RS232

interface (e.g. event printer

DL3750+)

Output card (4M) FCA3602-Z1 FCA2001-A1 - 4 configurable monitored – Communication module for outputs (DC 24 V) - Output current per output: 1.0 A – Max. current of output card: 2.0 A Order no.: \$54433-A114-A1 Order no.: A5Q00005327

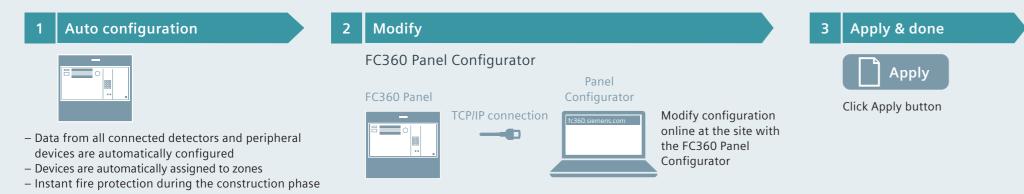

RS485 module (isolated) FCA2002-A1 - Communication module for peripheral devices with RS485 interface Order no.: A5Q00009923

Note: Unit can be powered from the integral power supply or from an additional external power supply.

FC360 Panel Configurator (online)

Panel configuration in three easy steps.

The online tool is used to configure the panel on site. The panel has an integrated Web server that can be accessed with a Web browser. No additional software is needed. The TCP/IP connection to the panel is established via the Web address fc360.siemens.com.

Cause and effect matrix

Most systems require all alarming devices and control outputs

to operate with any fire. This operation is available by default.

Where more complex controls are required, the FC360's unique cause-and-effect matrix makes any required changes

1) Mill solution manual Mill solution manual Mill Solution manual Mill Solution manual Mill Solution Mill

easy and logical.

Detection and control view

The FC360 configuration tool is simple to understand and use. The connected devices are listed in a table in their order of wiring, allowing the user to easily visualize the devices as installed. Outputs and sounders can be assigned into one of 32 control or evacuation zones and an appropriate description text (e.g. "door release") can be added for more clarity.

FC360 Desktop Editor (offline)

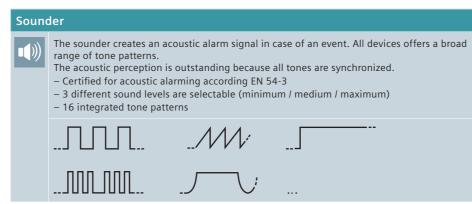

The FC360 Desktop Editor is a tool for viewing the system's configuration offline as well as making text or causeand-effect changes.

In addition, the tool provides installers with self-learning opportunities where they can create their own "virtual" system. This quickly builds solid expertise and experience and reduces training costs and effort.

In the event of a fire it is essential to alert and evacuate people as fast as possible. A wide product portfolio range offers alarm devices for acoustic and optical alarming. All devices are loop powered and constantly monitored.

Voice

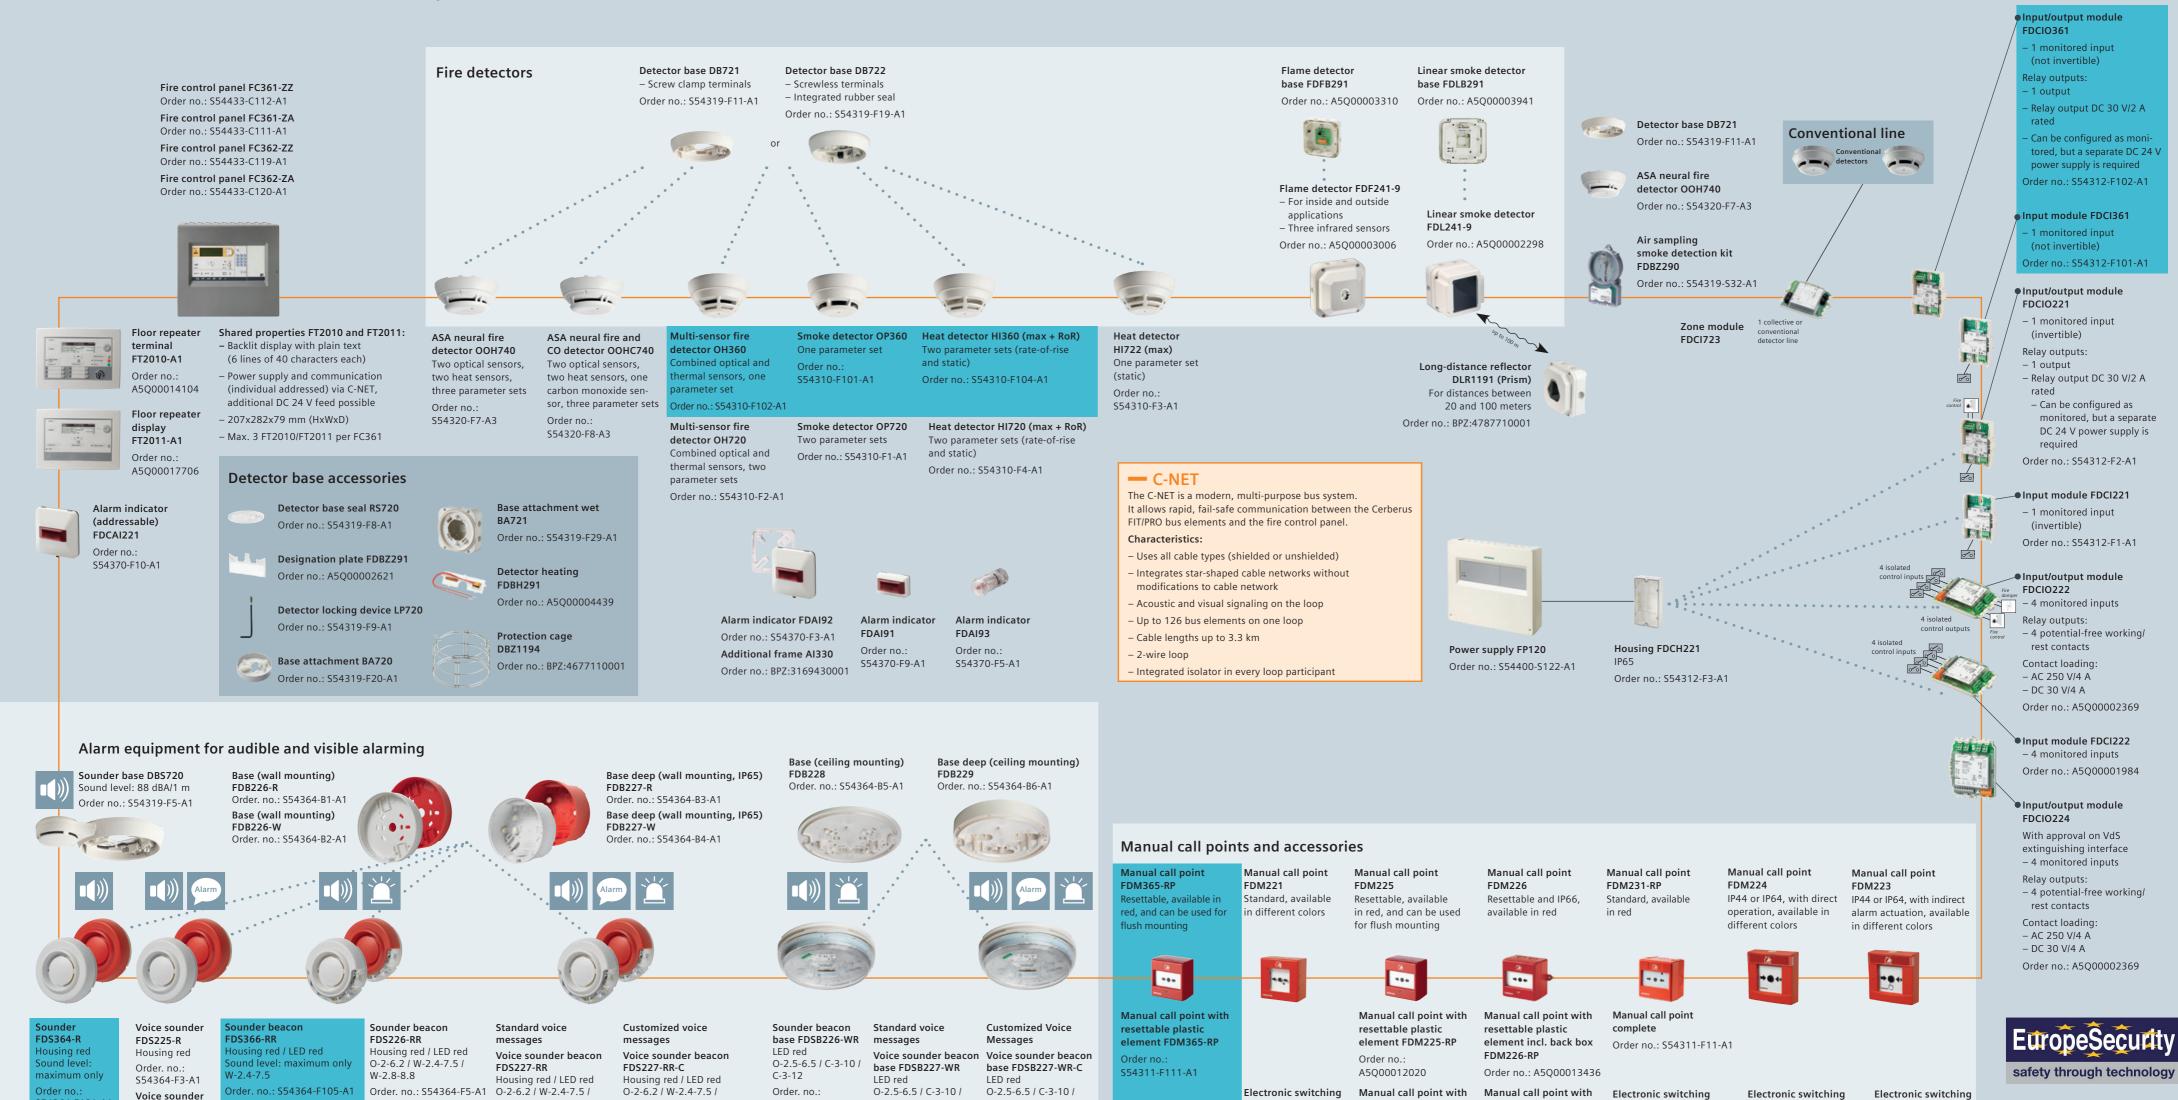

anguages (15 inte	grated, 2 customizable)	Customer-specific voice message

Cerberus FIT FC360 – application examples

Benefits at a glance

1. Maximized fire safety

Reliable and early detection

Voice sounder

- LPCB approved to EN 54-2, EN 54-4, EN 54-13
- Fast and safe evacuation with voice sounders

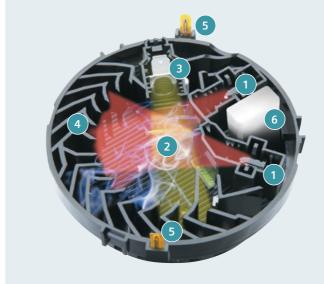

2. Easy to use

- Auto-configuration (plug & play)
- License free engineering tool

3. Cost and time efficient

- Training efforts reduced
- Faster engineering with pre-configured devices and build-in engineering tool

ASA parameter sets for diverse application areas

Faster fire detection with ASAtechnology

Heat detectors are needed in many areas due to the potential for false alarms. However, heat detection provides significantly less protection. The ASA neural fire detector OOH740 with its dual optical chamber design allows advanced smoke detection to be offered where others can only offer heat detection.

Electronic switching

1 Two IR light sources **2** Dispersion of light rays by smoke particles 3 IR receiver 4 Patented labyrinth 5 Temperature sensors

6 CO sensor for OOHC740

Contact your local sales office for more information or application support.

Selectable parameter sets:

Fast Response	Balanced	Suppression	Separate CO sensor
 Areas where speed of detection is the priority and where there are few false alarm sources EN 54-27-approved detection for air-handling ducts in conjunction with air sampling smoke detection FDBZ290 	 Provides a good balance between effective smoke detection and false alarm resistance Ideal for spaces where transitory false alarm sources are expected Application examples: standard hotel and nursing home bedrooms 	 Areas requiring smoke detection where a high number of false alarm sources may be expected, including steam, cooking, cigarette smoke, aerosols, welding, etc. Application examples: kitchens, workshops 	 Provides fire-independent detection of toxic carbon monoxide due to incomplete oxidation from exhaust gases, defective gas heating, cooking appliances or chemical and production- related processes Application examples: hotel garages, nursing homes, shared housing
