

Headline News Studio

Broadcast from the heart of Europe

Studio facilities and live position in the heart of Brussels

Headline News Facilities offers the full range of broadcast and content production services to media outlets, organisations and brands. The team is trusted by major broadcasters, such as the BBC, Rai, SVT and RTÉ.

Headline's multi-camera, green screen studio is based in the very centre of Brussels. It's available for live and pre-recorded shows, and features top of the range technical equipment. Fast turnaround, remote programme production is also available.

Also on offer for broadcasters:-

- Logos, fonts and colours can be integrated into the set
- A live reporter balcony position - with the best backdrop in Brussels!
- Live streaming to chosen channels
- World-class camera operators, programme directors and editors
- Crews that are fully accredited for EU institutions
- Podcast studio
- Research department and guest booking
- Live streaming and contribution over LiveU, SRT and EBU
- ISO recording of all camera feeds for post production

All creative services, under one roof

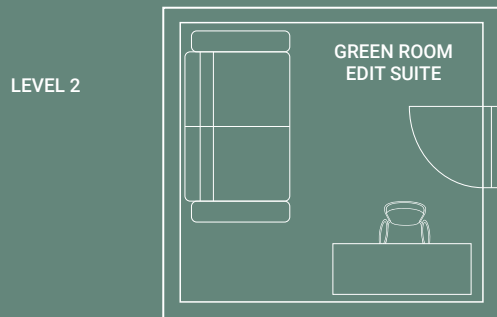

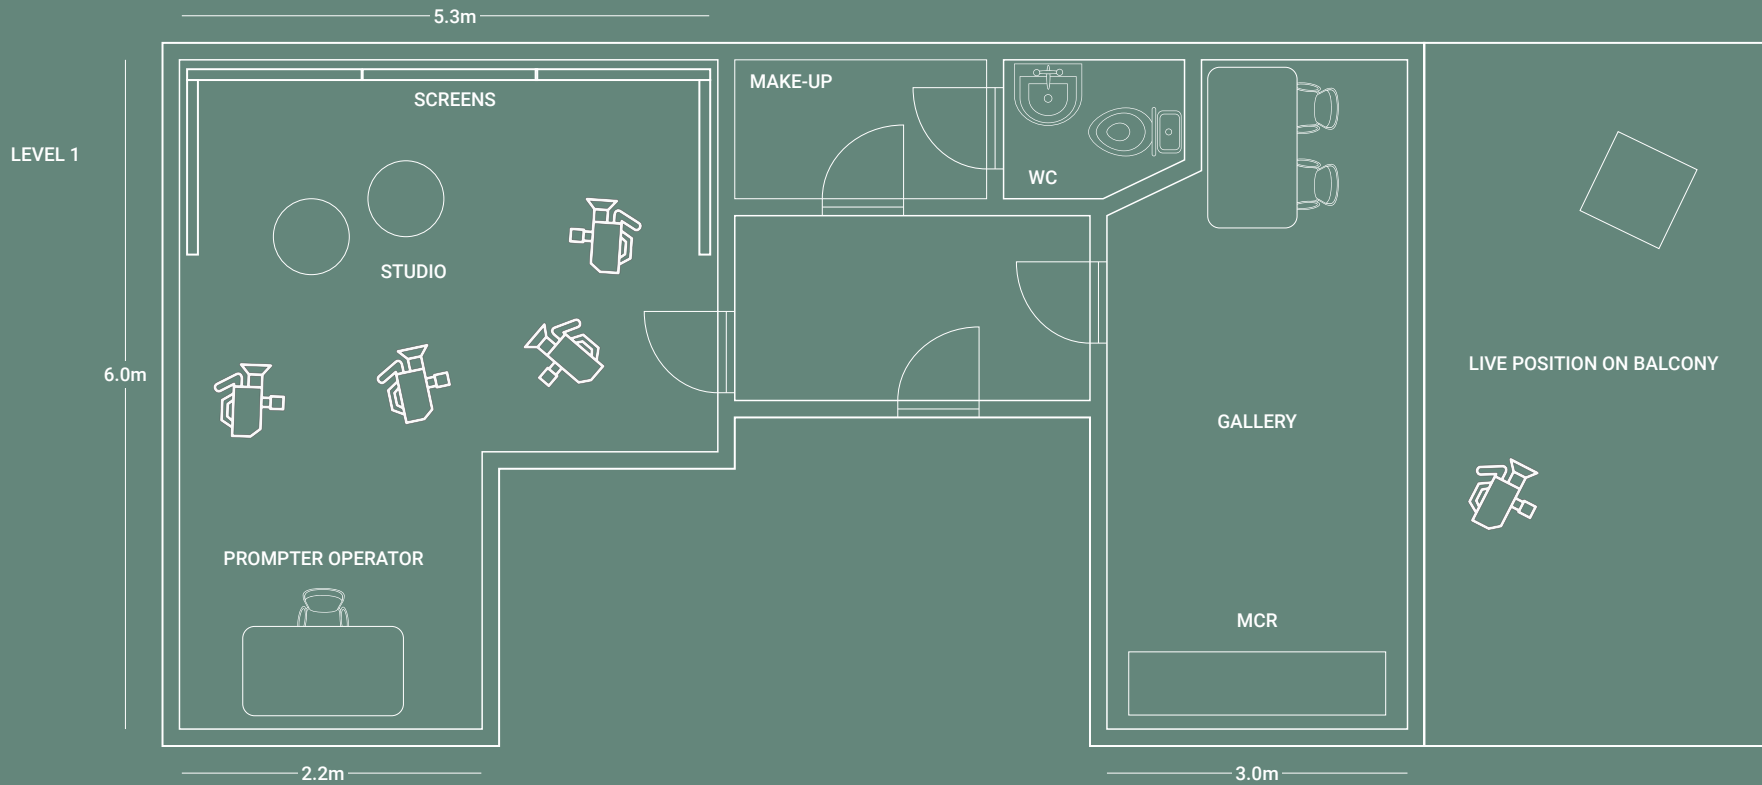

Non-broadcast clients, such as companies, institutions and lobby groups, can take advantage of Headline's expertise and experience. Trusted by global brands, such as PwC, Lamborghini, Masdar, The Global Crime Index and Toyota Gazoo, the team supports clients in engaging their audiences with innovative content.

CEO interviews, global reports, roundtables, internal communications - whatever the request, Headline brings brand communications to life with creative thinking and original high-quality broadcast formats.

Also on offer for clients:-

- Studio, remote or on-location production
- Live streaming launches, events, announcements to chosen channels
- Live and pre-recorded broadcast interviews with the media
- Full multi-camera TV-style shows
- Brand guidelines, fonts, colours can be integrated into the set
- Production of on-screen graphics packages
- Presenters, reporters and make-up available on request
- Podcast production

Equipped for all your broadcast and content needs

- Refurbished studio with top-of-the-range equipment
- Four cameras
- Green screen background or tv screens/studio background
- Full professional audio mixing desk
- High speed dedicated fiber internet connectivity
