Centro de Investigación Veterinaria de Tandil

Tandil, March 30, 2023

**International Council for Laboratory
Animal Science Governing Board (ICLAS),**

To whom it may concern,

As Director of the Centro de Investigación Veterinaria de Tandil (CIVETAN), UNCPBA-CICPBA-CONICET, I wanted to express my sincere gratitude for ICLAS support of the VI edition of the course "Actualización en conceptos de investigación con animales de laboratorio", held in Tandil, Buenos Aires, Argentina, between 6th to 10th of March. I want to highlight the importance of the course for training postgraduate students in the subject. Having received students from different regions of our country marks the significance of it not only for our institution but also for other institutions in our country. Furthermore, I would like to highlight the knowledge and skills the students gained in the classes, and I am deeply grateful for the time and effort all the teacher team put into making the course so formative and engaging.

Sincerely,

Dr. Luis I. Alvarez
Director
Centro de Investigación Veterinaria de Tandil
(CIVETAN)
