

INTERNATIONAL COUNCIL FOR LABORATORY ANIMAL SCIENCE

Mission: ICLAS is an international scientific organization dedicated to advancing human and animal health by promoting the ethical care and use of laboratory animals in research worldwide.

ICLAS Program Support Application – 2026

Deadline for submission – October 5th 2025

The International Council for Laboratory Animal Science (ICLAS) (<https://iclas.org/>) invites applications through ICLAS members for financial support for programs and activities scheduled to be held in 2026. ICLAS supports programs and activities that benefit the largest possible audience within each region of the world. Funding requests are prioritized by each of ICLAS's Regional Committees: **Africa, Americas, Asia, Europe and Oceania**. The amount of funding awarded per request is generally **up to €2000** for initiatives with local impact. Requests for larger amounts of funding will be considered for initiatives with regional or global impact.

ICLAS encourages and welcomes innovative ideas for programs that align with its mission of promoting ethical care and use of laboratory animals in research worldwide. ICLAS Regional Committees will review the applications submitted by members in their regions. The Committees will refer the most compelling requests to the Governing Board for funding decisions. The Governing Board's decisions will then be ratified by the ICLAS General Assembly.

Once each year, ICLAS makes funding announcements along with deadlines for receiving applications. Applications received after the deadline are not able to be considered. Contacts for the Regional Committees may be requested at **info@iclas.org**. After the completion of any funded activities, a detailed report (including the number of participants, geographical attendance, achievements, and expenditure of ICLAS funds) must be submitted to the ICLAS Secretary General and Treasurer within **3 months**.

Interested applicants may fill out the form below to request financial support from ICLAS for a Laboratory Animal Science program/activity in their Region. The deadline for submission is **October 5th, 2025**.
