Street Solar

6000 lumen LED | 5.5m

LOW EMISSIONS LIGHTING TOWERS

Street Solar 6000 lumen LED | 5.5m

The Street Solar is easy to use and multi-functional. This autonomous light pole is ideal as orientation lighting for cycle paths, parking lots, events and construction sites. The powerful 60W solar panel charges the Lithium battery in 7 hours. The PIR sensor makes it possible for the lighting to only turn on when there is movement. This robust mast can be used anywhere.

Events
Long autonomy, no emissions and sound.

Verhuur
Easy to use, long autonomy, low fuel.

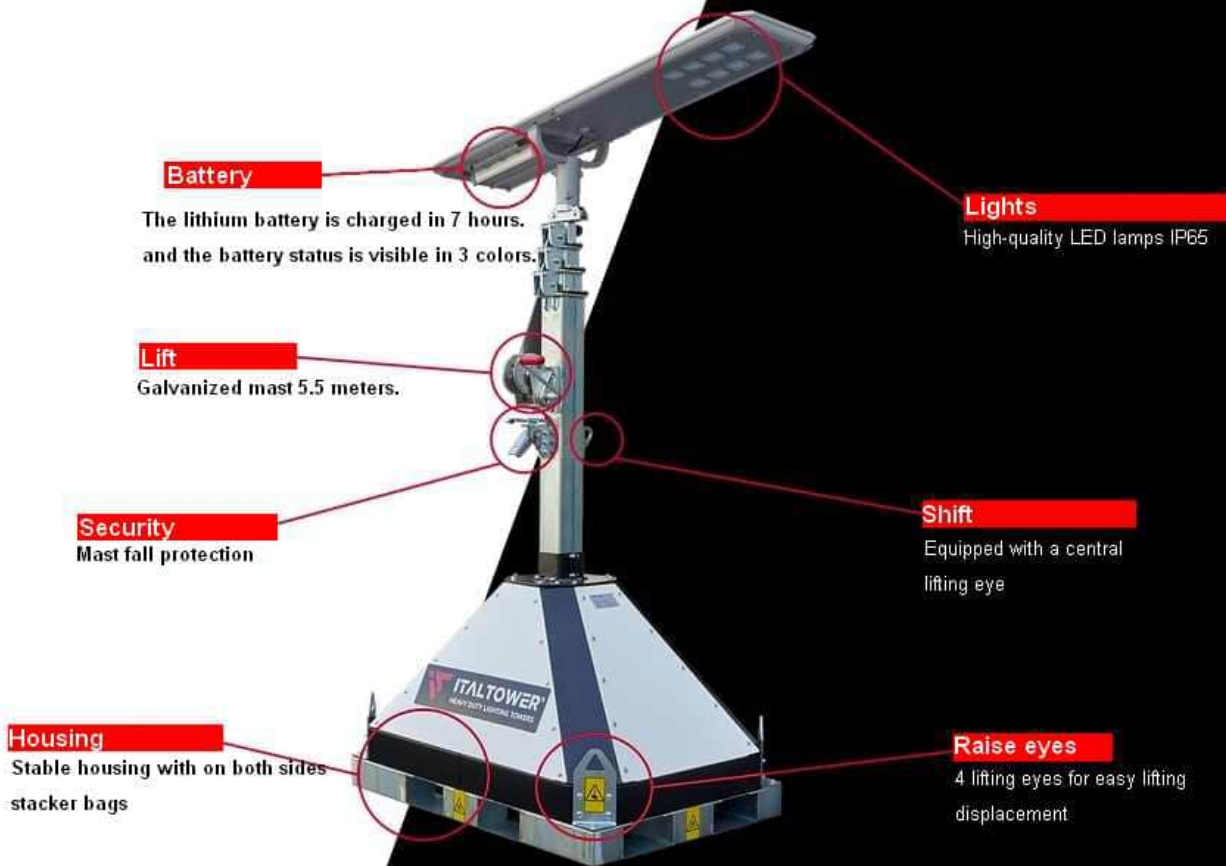

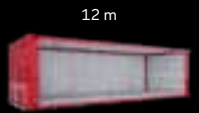

Build
Duurzaam, robuust en ideaal voor oriëntatieverlichting
