

The Netherlands, 27th of September 2025

Subject: The glow up of **Giorgia Meloni**! Is she **the new European Leader**?

**Dear Gioria,**

On the first of March 2025, I filed an Application for Annulment concerning the appointment of [Ursula von der Leyen](#) as President of the European Commission. The appointment did not follow the democratic Spitzenkandidat procedure, as she was not elected through the process designated to reflect the outcome of the European Parliament elections. Instead, she was nominated by the European Council, thereby **undermining the principle of citizen representation and the democratic legitimacy of the office**.

**I like you very much** 🥰 and I think you should be our new European Leader. A strong leader like yourself needs a strong man 🦵 I saw you role your eyes for most men, but you haven't met me 😊

Like [you rightfully said](#) there is an attack on our identity: national, religious, gender, and familial identity are under attack. They want us to be no longer individuals, but numbers, slaves, and consumers. We say: we are not numbers. We defend the value of every human being, our families, our homeland, and our freedom. We will **never be slaves to financial speculation**.

I would call it a strategy to create disconnected mindless slaves. The counter strategy is to **create connected awareness**. We live in a world full of lies where **genuine eye contact** is very rare. People need to become more aware of the addictive and (socially) toxic effects of digital technology and learn to [reconnect with themselves](#).

The US is known for storytelling and brainwashing by controlling algorithms. We can easily build an app that combines the powers of LinkedIn, Facebook, Instagram, Twitter, TikTok and YouTube. We can add a digital wallet with a stable European currency with a limited amount similar to the Bitcoin **blockchain technology**. And like [Africa recently did is turning on our own internet network](#).

Do you remember the words of [Ursula von der Leyen](#)? "A better world also means a healthier world, and vaccination is our best chance to achieve this. Vaccines have saved millions of lives over the past fifty years. But right now, millions of children are still at risk. They need vaccines. That is why we must continue to support vaccination worldwide. Today, I am pleased to pledge **290 million dollars to Gavi, the Vaccine Alliance**. Every child must be protected, and many more will follow. Together with Gavi, we aim to vaccinate five hundred million children by 2030. Europe will do its fair share. Count on us, my friends," **Have you seen her text messages?**

I remember that [Bill Gates](#) on the 27th of January 2021 said: "Making the mRNA is really easy and really cheap, and that's the magic of this thing. But there's no doubt that in the next 5 years we can, you know, **we just need to mess around**. There are a lot of lipid nanoparticles, and some are very self-assembling. There's no inherent reason it's not thermally stable, it's not cheap, and it's not scalable. So, over the next 5 years, we will fix that part of it, mature it—which is very typical—and will be able to build factories worldwide that can make **\$2 vaccines** with even less lead time than we've had to have here during this pandemic. And we'll use those, as you suggest,

for every disease that we don't have vaccines for. We will try mRNA; in fact, for HIV we have multiple approaches: one that's more of a B-cell approach, and one that's more of a T-cell approach. For malaria, we have multiple ideas, and for TB we have multiple ideas. So, to fill in the missing vaccines, we will make a lot of our bets with the Gates Foundation and others who care about global health, who will be mRNA-focused.”

Luckily [RFK Jr](#) canceled **\$500m in funding for mRNA vaccines** for diseases like Covid. The US Department of Health and Human Services (HHS) plans to cancel \$500m (£376m) in funding for mRNA vaccines being developed to counter viruses that cause diseases such as the flu and Covid-19. So we got that covered.

[Karim Aachboun](#), a Dutch tax advisor and legal consultant, has initiated legal proceedings against former [Dutch Prime Minister Mark Rutte](#), who is now serving as NATO Secretary General. Aachboun filed an urgent injunction in Brussels to suspend Rutte's NATO appointment, citing ongoing Dutch legal cases involving the [child abuse](#) scandal and the death of a Dutch citizen in Gaza. The Brussels court rejected the request, stating it lacked jurisdiction over NATO-related matters.

In the Netherlands, **Aachboun represents victims of the child abuse scandal** and the family of a Dutch woman killed in Gaza. He contends that the Dutch government's actions, including supplying military parts to Israel, contributed to these incidents.

Regarding [Dick Schoof](#), unelected prime minister, Aachboun filed a report against him, alleging insufficient action in response to the Gaza conflict. The Dutch court dismissed the case, stating Schoof lacked legal legitimacy to stand trial in this context.

[Aachboun](#) has expressed concerns about potential interference in the legal process, including **allegations of attempts to influence judicial impartiality**. He continues to pursue these cases, emphasizing accountability and justice.

**We need to be the centre of the attention.** Where attention goes, money flows. You need to be the story teller. The one that gives a man a chance to show you what [real love](#) is. To be the light in a world full of darkness. To become the beautiful shining star that you are meant to be. Can you imagine me with hair...

I love your [authenticity](#). I love your voice 🗣️ I have urged for a cease fire, but people don't listen yet. I would love to hear you **speak about cease fire** like you speak about Roma and perhaps we can make a duet in English 😊

On the 29<sup>th</sup> of October there will be new elections and I am running for [president](#). I hope to [see](#) your beautiful eyes soon in real life 😍 my love and look forward to your invitation. "**Rome is the capital** of Italy! Rome! Rome is the capital of Italy, and I'll tell you more: Rome should be the capital **of the European Union**."

😊 Youri Hazeleger
