IDENTIFICATION LABELS

OilSafe® has developed a comprehensive suite of industrial grade labels to suit your lubricant labeling program. Labels are available in a variety of sizes, materials and styles to provide the flexibility needed.

CONTENT LABELS

Available in 10 colors, a variety of sizes, materials and styles to provide the flexibility needed for the challenges that exist in industrial environments. OilSafe Content Labels enable identification of container and bulk storage contents through color-coding and the addition of extra information as required. Each label is designed with clear color reinforcement and a large white space to allow for writing (in pen) of required information.

PREPRINTED LABELS

0.5”FREQUENCY LABELS

Typically used to indicate the filling frequency of a lubricant fill point.

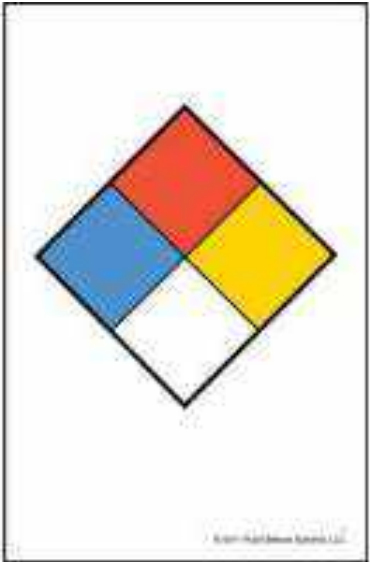

These labels are black text on white background and can be used with any colored Grease Fitting Protector or ID Tab. Polyester Adhesive.

Part #	900480	900481	900482	900483	900484	900485
Frequency	Daily	Weekly	Monthly	Quarterly	Semi annually	Annually
Labels/Sheet	180	180	180	180	180	180
						

NFPA LABEL – BLANK

Simply fill in the blank fields of these NFPA labels.

Available in adhesive, water resistant paper and plastic card style.

Part #	289201	289202	289203	289204	289205	289206	289207
Material	Plastic card	Adhesive	Adhesive	Adhesive	Adhesive	Water resistant paper	Water resistant paper
Size	2,2" x 3,4"	2" x 3,5"	3,25" x 3,25"	5" x 8"	8,5" x 11"	2" x 3,5"	3,25" x 3,25"
Labels/sheet	1	10	6	2	1	10	6

SAMPLE POINT LABELS

Clearly identify Lubricant Sample Points with these durable Plastic Card Labels – available in two formats and can be written on with marker pen.

Part #	289251	289252
Type	Basic	Detailed
Material	Plastic card	Plastic card
# Labels	1	1

0.5”LABEL KITS

Designed to match with pre configured Grease Fitting Protector Kits .

These labels are provided with fluid identification information such as color and shapes, and also include fill point numbers in a sequence appropriate for a unique equipment set.

Fill point sequences are available 1 thru 15 or 1 thru 30.

Custom configurations available on request.

Part #	900400	9004001	9004020	9004021	9004050	9004051	900470	900471
Fill points	1-15	1-30	1-15	1-30	1-15	1-30	1-15	1-30

Square	-	-	-	-	Yes	Yes	Yes	Yes
Triangle	-	-	-	-	Yes	Yes	Yes	Yes
Shield	-	-	-	-	-	-	Yes	Yes

“USED OIL” LABELS

Clearly identify used oil containers and assist with regulatory compliance with these durable Polyester adhesive labels available in a variety of sizes.

Part #	289101	289102	289103
Type	Basic	Basic	Basic
Size	3,25" x 3,25"	5" x 8"	8,5" x 11"
Labels/sheet	6	2	1
			

CUSTOM LABELS

In addition to the innovative Wizard, OilSafe can custom create nearly any label for your lubricant identification requirements

Shape	Dimension	Application	Quantity	Water & Tear Resistant	Polyester Adhesive	Laminated card
	2" x 3,5"	Popular and practical sized label that provides for detailed information and fits most labeling applications.	Sheet of 10			
	2" Circle	Ideal for OilSafe Cartridge Protection Tubes of applications where a smaller space is available, yet detail is still useful.	Sheet of 12			
	3,25" x 3,25"	A larger label for areas where greater visibility is required.	Sheet of 6			
	0,5" Circle	Designed for OilSafe Grease Fitting Protectors and ID Tabs. These labels provide room for specific identification information.	Sheet of 180			
	0,5"x 5,5"	Curved to fit OilSafe color-coded drum rings.	Sheet of 20			
	2,2" x 3,4"	Providing the same level of detail as the 2" x 3.5" labels, this size is unique to the laminated card labels.	Single Labels			

Label Style	2" x 3,5"	2" Circle	3,25" x 3,25"	Drum Ring	0,5"x 5,5"	2,2" x 3,4"
Content	Adhesive & Water Resistant	Adhesive & Water Resistant	Adhesive & Water Resistant	Adhesive	Adhesive	Laminated Card
Pre-printed	Adhesive	Adhesive	Adhesive	Adhesive	Adhesive	Adhesive
Wizard	Adhesive & Water Resistant	Adhesive & Water Resistant	Adhesive & Water Resistant	Adhesive	Adhesive	Laminated Card

ADHESIVE LABELS

OilSafe Adhesive labels are made of heavy duty Polyester and have a permanent adhesive. The label material can resist water and most lubricants. Apply to a clean flat surface for best long term adherence

WATER RESISTANT PAPER

With a paper-like texture enabling easy writing, these heavy duty labels have built-in protection against the rigors of industrial work places. Use with OilSafe pockets and other label holding components for attachment to bulk storage, transfer containers and fill points.

LAMINATED CARD

Similar to credit cards in size and weight, these highly durable cards are made for the toughest work environments. Over laminated for additional protection of printed information these cards can be fixed with an OilSafe leash or with heavy duty double-sided tape.

CUSTOM LABELS

In addition to the innovative Wizard, OilSafe can custom create nearly any label for your lubricant identification requirements. Tell us more about your requirement so we can work with you to deliver a cost effective industrial solution.

Create simple or detailed, custom fluid identification labels specifically for your unique fluid requirements. OilSafe labels support reliability improvement and safety compliance.

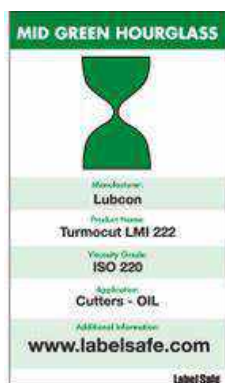

Create custom ID labels to ensure the right fluid is used in the right place every time. Label lubricant bulk storage, transfer containers and fill points with simple or detailed custom labels. A great tool for reliability and safety initiatives, particularly in relation to OSHA Right to Know requirements.

If the identification solutions you see here do not meet your specific requirements, please contact us to find out how we can help by designing and delivering your required labels to meet your unique needs.

- Labels are available in a variety of sizes, materials and styles to provide the flexibility needed for the challenges that exist in industrial environments.
- Consider using a color and/or shape combination to uniquely identify your lubricant or fluid.
- Labels are produced to your design, in economical quantities and shipped to your door.
- Very easy, cost effective and high quality identification labeling.

PA22001

Custom ID label - 2" x 3.5" - Adhesive

PA22002

Custom ID Label - 2" Circle - Adhesive

PA22003

Custom ID Label - 3.25" x 3.25" - Adhesive

Supplied in sheets of 10 labels.

Supplied in sheets of 12 labels.

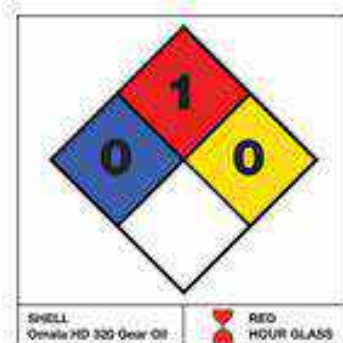

Supplied in sheets of 6 labels.

PA22004
Custom ID Label - 0.5"
Adhesive

Supplied in sheets of 180 labels

PA30003
NFPA Label - 3.25" x 3.25"
Adhesive

Supplied in sheets of 6 labels

PW22003
Custom ID Label - 3.25"x3.25"
Water Resistant Paper

Supplied in sheets of 6 labels

PA22005
Custom ID Label - Drum
Ring – Adhesive

Supplied in sheets of 20 labels

PW22001
Custom ID Label - 2" x 3.5"
Water Resistant Paper

Supplied in sheets of 10 labels

PW30001
NFPA Label - 2" x 3.5" -
Water Resistant Paper

Supplied in sheets of 10 labels

PA30001
Custom ID Label - 2" x 3.5" –
Adhesive

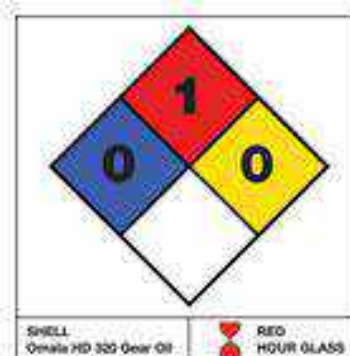

Supplies in sheets of 10 labels

PW22002
Custom ID Label - 2" Circle -
Water Resistant Paper

Supplied in sheets of 12 labels

PW30003
NFPA Label - 3.25" x 3.25" -
Water Resistant Paper

Supplied in sheets of 6 labels

ZP22006

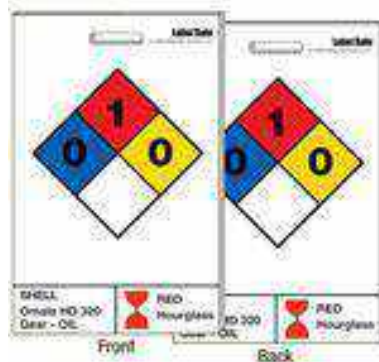

Custom ID Label - 2.2" x 3.4"- Plastic Card - Single Sided

Supplied as single card

ZP30106

Custom NFPA Label - 2.2" x 3.4" - Plastic Card - Double Sided

Supplied as single card

PA22008

Custom ID Label - 8.5" x 5" - Adhesive

Supplied in sheets of 2 labels

ZP22106

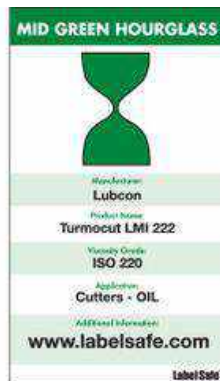

Custom ID Label - 2.2" x 3.4"- Plastic Card – Double Sided

Supplied as single card

PA22009

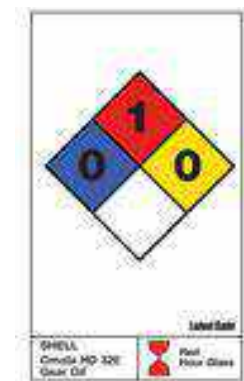

Custom ID Label - 8" x 10" - Adhesive – 1 UP

Supplied in sheets of 1 label

ZP30006

Custom ID Label - 2.2" x 3.4" - Plastic Card – Single Sided

Supplied in sheets of 10 labels

10 shapes available in 10 colors

Custom shapes or symbols are available upon request.

ID Labels are available on other substrates and sizes to suit your varying workplace requirements.

OILSAFE WIZARD

With the patent pending OilSafe Wizard system, you can create simple or detailed fluid identification labels tailored specifically to your unique fluid requirements. An online tool that enables you to add your information into predefined identification label templates. Labels are produced to your design in economical quantities and shipped to your door. Very easy, cost effective and high quality identification labeling.

The OilSafe system of labels manage and accurately identifying fluids from bulk storage to intermediate container to the point of use.

Use OilSafe labels to support reliability improvement and safety compliance. Consider using a color and/or shape combination to uniquely identify your lubricant or fluid.

For more information on the OilSafe Wizard, please contact us.
