

SAFE STORAGE CHECKLIST

Store lubricants and chemicals safely, efficiently, and in compliance with EU regulations.

GENERAL STORAGE CONSIDERATIONS

- ☐ Are you storing flammable, hazardous or sensitive fluids?
- ☐ Is your storage area indoors or outdoors?
- ☐ Are containers leak-free, upright and easily accessible?
- ☐ Are you complying with local and EU environmental regulations?
- ☐ Is secondary containment (bunding) in place for spills?

SPILL CONTAINMENT SYSTEMS

- 1 -

Use for: Drums, IBCs, jerry cans, small containers

- ☐ Spill pallets sized for 1–4 drums
- ☐ Bunded trays or tanks for high-risk areas
- ☐ IBC-compatible containment units
- ☐ Materials compatible with stored substances (e.g. chemicals, oil)
- ☐ Easy access for handling and transfer operations

SAFETY CABINETS (INDOOR USE)

Use for: Oils, greases, flammable or aggressive chemicals

- ☐ Epoxy-coated steel for general lubricants
- ☐ HDPE cabinets for aggressive or corrosive fluids
- ☐ Fire-rated cabinets for flammable substances
- ☐ Built-in sump base (70 mm+) for spill containment
- ☐ Natural ventilation and lockable doors

MODULAR SHELVING SYSTEMS

Use for: Lube rooms, maintenance zones, OilSafe® storage

- ☐ Powder-coated steel, corrosion-resistant
- ☐ Adjustable shelves for different container sizes
- ☐ Optional bunded trays under shelves
- ☐ Supports colour-coding and separation by lubricant type
- ☐ Integrated into Lubristation or workshop layout

OUTDOOR STORAGE CABINETS

Use for: External sites, mobile maintenance, secure drum storage

- ☐ Weather-resistant steel or galvanised material
- ☐ Lockable doors, anti-theft protection
- ☐ Sloped roof with drainage
- ☐ Integrated bunding for spill protection
- ☐ Room for drums, jerry cans or multiple products

- 2 -

FINAL CHECK

- ☐ All fluids are safely stored with appropriate containment
- ☐ Storage complies with local and EU regulations
- ☐ Fire safety risk assessed and appropriate cabinets used
- ☐ Clear access and organisation for maintenance teams
- ☐ Outdoor cabinets are secured and weatherproof
