

Mobile Oil Dispensing Caddy (55 Litre)

The **Lubrettec Mobile Oil Dispensing Caddy (55 Litre)** – part # LT-LCME1336 - is engineered for today's demanding workshop environments. Whether you are topping up engines, servicing machinery or managing routine fluid changes, this system makes oil dispensing easier, cleaner and more reliable. Built for professionals who value durability, performance and mobility, it ensures your fluid handling tasks are as streamlined as possible.

This oil caddy is a practical solution for automotive workshops, industrial maintenance teams, agricultural service operations and any facility that regularly handles lubrication oils and fluids.

Key Features

Rugged 55 litre tank

Constructed from heavy-duty steel, the tank offers ample capacity for extended use and is designed to withstand the rigours of daily workshop life.

Double-acting hand pump

Delivers efficient oil transfer with each stroke, reducing operator fatigue and speeding up fluid dispensing.

2 metre hose with dispensing gun

Long reach for easy access into engine bays and hard-to-reach equipment points, while the professional-grade dispensing gun ensures smooth, controlled flow.

Portable on wheels

Compact design with sturdy castors allows effortless manoeuvring around your workshop or service bay.

Drip tray and secure lid

Helps prevent spills and contamination, keeping your workspace clean and compliant with good housekeeping standards.

Easy-to-read level indicator

Quickly check remaining volume at a glance without lifting lids or interrupting work.

Benefits

Boost workshop productivity

The ergonomic design and efficient pump mechanism reduce downtime and make fluid handling faster and less strenuous.

Cleaner operations

Spill-resistant features and integrated storage help maintain a tidy work environment and reduce waste.

Greater reach and flexibility

With a generous hose length and mobile platform, you can service multiple vehicles or machines without repositioning the core unit.

Robust build for long service life

High-quality materials and construction give you confidence in extended performance, even in busy commercial settings.

Versatile application

Perfect for oil change bays, plant maintenance teams and agricultural workshops.

Specifications

Capacity

55 litres

Material

Heavy-duty steel tank with corrosion-resistant finish

Pump type

Double-acting hand pump

Hose length

2 metres

Dispenser

Professional oil dispensing gun with secure discharge control

Mobility

Four castors for easy movement

Accessories included

Drip tray, level gauge

Dimensions (approx)

Height: 98 cm

Width: 62 cm

Depth: 52 cm

Net weight (empty)

Approx 26 kg

Who it is for

This mobile oil dispenser is ideal for:

- Automotive workshops and garages
- Industrial maintenance departments
- Agricultural service technicians
- Fleet and heavy-vehicle service centres

It suits anyone who needs a reliable, mobile oil handling solution that supports fast, clean and organised fluid management.
