

CERTIFICATE

Number: Plurel 140361/002/EN

Lloyd's Register BV is contracted by SAV Walker Hagou and McNetiq to perform a Risk Inventory & Evaluation (RI&E) of the McNetiq Controllock scaffold anchor device, model SAV 551.01 – 1400.

Lloyd's Register identified no blocking safety risks during the RI&E and declares that the technical safety of the McNetiq Controllock scaffold anchor device is assured.

Plurel, a DEKRA company has assessed the RI&E activities of Lloyd's Register with respect to process and content, and concludes that:

- Performing a RI&E is the appropriate approach for innovative products for which no safety requirements exist;
- The RI&E of the McNetiq Controllock scaffold anchor device is performed correctly;
- SAV Walker Hagou and McNetiq have followed up the findings of the RI&E.
