

The city is on high alert as a dangerous gang threatens to activate a sophisticated cyber bomb, also known as an Electromagnetic Pulse (EMP) device. If triggered, it would shut down all electronics across the city. Your mission, as freelance spies, is to stop this catastrophic attack.

The gang has hidden the device somewhere in the city, and it's up to you to locate it before time runs out.

Our team has identified hotspots where the gang has left behind cryptic clues and riddles. By solving them, you'll move step by step closer to finding and deactivating the EMP device.

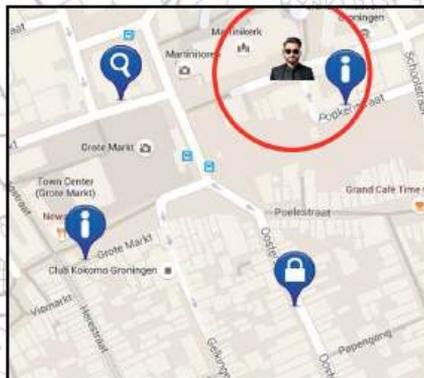

Stay sharp, move fast, and think strategically. The fate of the city is in your hands.

PAY ATTENTION TO TRAFFIC

Impossible Mission instructions

The locations of the hotspots are still unknown, but you will uncover them as you explore the city. All hotspots are locked and can only be accessed by solving a puzzle. Clues are scattered throughout the city. Search for them and collect all the clues for a hotspot to solve the puzzle. The colors indicate which hotspot the clues belong to. Each hotspot has a different number of clues. Make sure you've visited all information points.

On your screen, you'll see yourself moving around with a red action circle around you. You can click on icons when they appear within your action circle.

Yet to be discovered

Move to get this into your action circle to reveal whether it contains a hotspot or an information point. If you find a hotspot, act fast! Solve the puzzle within 15 minutes to earn a €200,000 bonus.

Information

This contains essential clues needed to solve the puzzle for the hotspot of the same color. Click to view the clue. Once discovered, you can access it anytime.

Hotspot

The hotspot is where you need to solve a puzzle. If you find a hotspot, you will receive €50,000.

Do you know the solution? Enter it. *(You don't need to be near the hotspot to do this.)*

Correct answer? You earn €500,000. Wrong answer? Unfortunately, this will cost you €50,000.

Dossier

Important! Puzzles can only be solved using information from the dossier. If you have printed it, always keep it with you. You can also open the dossier digitally using the folder icon.

Gang member

At certain moments during the game, a gang member will be spotted in the city. You can earn extra money by taking them down. Do this by getting the gang member inside your action circle. The icon will then change to 

Now, you can capture the gang member.

Warning: A gang member can only be caught once. Be the first team to capture the appearing gang member and earn €200,000.

Requesting a hint

Have you found a hotspot but can't figure out the information? Request a hint! You can find it by clicking on a hotspot and scrolling down in the answer box. Each hint costs €100,000, so think carefully before using one.

Try to unlock as many hotspots as possible within the time limit to earn as much money as you can. The team with the most money at the end of the game wins. By clicking on , you can see how much money you have earned and how much you have lost.

Be quick... the clock is ticking!!

Game Screen

Finale

20 minutes before the game ends, the final stage begins. Find the EMP device and deactivate it. The necessary information for this can also be found in the dossier.

Bomb deactivated? You receive €1,000,000. If you're playing in multiple teams, the bomb can still cause major shifts in the final rankings.

TIPS

Each hotspot is linked to a specific color. Find all the clues of that color, combine them with the dossier, solve the puzzle, and get closer to locating the EMP.

It is not wise to attempt cracking the hotspot puzzle if you haven't gathered all the clues of that color. You will need every single one.

You do **NOT** need to return to the hotspot location to submit your answer. Once you've visited it, you can enter the solution from anywhere.

Some teams find it useful to bring a pen and paper or take notes on their phone.

Once a clue has been found, you can always revisit it anytime, anywhere.

Think carefully before submitting an answer—a wrong answer will cost you money (points).
