

# SHERLOCK

The word 'SHERLOCK' is rendered in a stylized font where each letter is filled with a fingerprint pattern. The letter 'O' is highlighted in yellow, while the other letters are white.

DO YOU SOLVE THE MURDER?

# SHERLOCK

DO YOU SOLVE THE MURDER?

The city is in turmoil as the police find the mangled, lifeless body of a young woman lifts out of the water. Who is responsible for this brutal murder? The local residents are in shock, the perpetrator has disappeared without a trace and the investigative team is groping in the dark. High time to hire a detective with an impeccable reputation... You!

Search the city for clues about the murder weapon. Gain the trust of witnesses, who often have valuable information about the perpetrator's appearance. And, last but not least, you record all your hunches directly on the sensitive record - or you run the risk that another detective will take the credit. Did you find out where the murder was committed? Just a photo! Do you know how? Photo!

**PAY ATTENTION TO TRAFFIC!**

## Goal of the game

In this game you will be looking for the appearance and name of the killer as well as the most likely murder weapon. Search the city and find clues leading to the solution of this murder.

## Discover the playing field

At the start of the game, the playing field is still invisible. By walking around you move your game character  and discover the city. The areas around you become visible. For each discovered area you get **1 point**. An action circle is drawn around your game character. If an object or person enters this circle you can interact with it.

## Special locations on the map

Forensic evidence. You get clues about the murder weapon from this.

Hints left by the killer himself. Here you get clues about the last name of the killer, it consists of 8 letters.

Witnesses. They saw a glimpse of the killer and can help you get a complete description of the killer's face. Terrified as the witnesses are, they need a little persuasion in the form of a bribe to get them to testify.

Money. to bribe the witnesses.

Photo assignments. On certain locations you need to fulfill special foto assignments to help the investigation team. You earn points with this..

## Spy on other teams

You can spy on your opponents a number of times during the game. With this you can find out information they collected and you missed. There is a  symbol in the top part of the screen, with the amount of times you can still spy. To spy you need to get the other team in your action circle and click on them.

## Reporting accusations

When you are sure of one of the three investigation parts, (first name, last name, murder weapon) you can make your accusation at the police station. Walk to the police station and click on it to make the accusation. You will earn **50 points** for a correct accusation. You don't have to make all three accusations at once. You can do it one by one.

You will only get feedback about the accusations when the game is over. Afterwards you will get points if one or more accusations are correct. You can get **bonus points** for speed. After you make an accusation you can still change it by making another one. This will overwrite the old one.

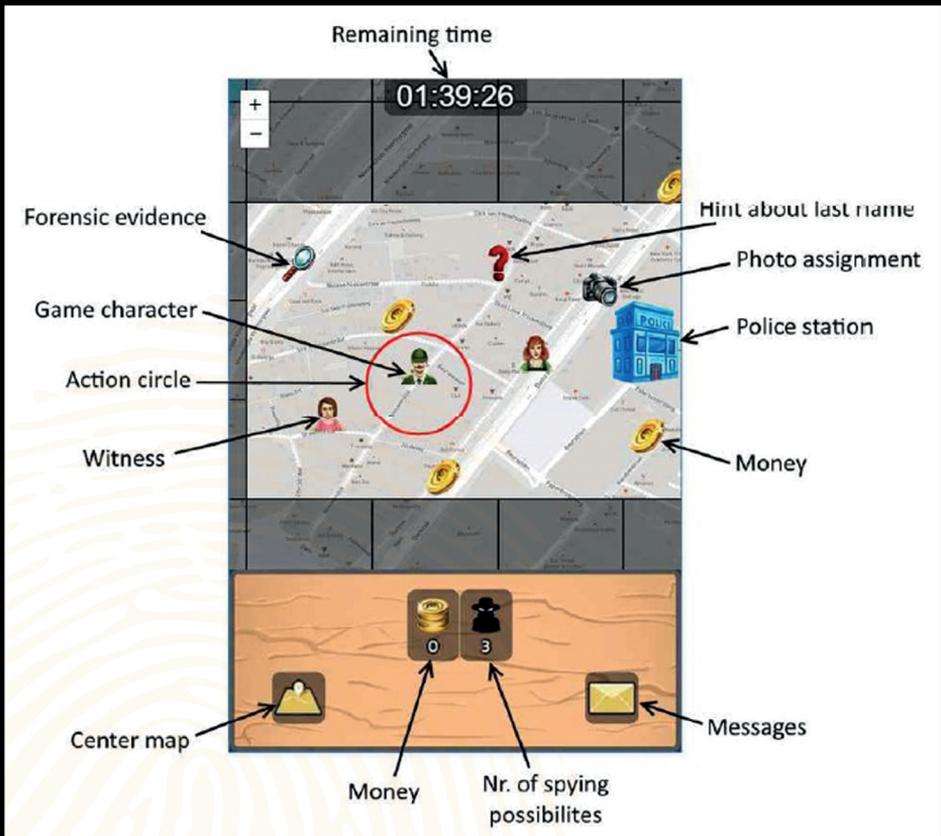

## 10 minutes before end of game

10 minutes before the end of playing time, at the top of the screen an icon of the police station will get visible. From that moment you can also pass on your accusation by clicking this icon. So you don't need to walk to a police station in this last 10 minutes of time.

## Pay attention!

In any case, make sure you make the accusations before the time is over, otherwise you won't get the points you deserve by the correct accusation.
