TATTOO AFTERCARE INSTRUCTIONS

Once the work is finished, it will be your responsibility to take care of the best possible result, following the points listed.

- If it has been applied the second skin, you will removed after 3 days
- If it has been applied the bandage ,you will removed after 3 hours.

- 1.touch the tattoo only for washing gently 2/3 times per day with warm water and mild soap .
- 2.after washing it, gently pat the wound dry with a clean towel without rubbing the tattoo but dabbing.
- 3.apply a thin layer of Aquaphor, Bepanthen or tattoo solution for 3 times per day for the next 10 days, letting breath the tattoo without bandag.
4. Make sure to wear always clean woolen clothes, not too tight.
5. Do not use general disinfectant such Sterilon or Betadine on the tattoo.
- 6.Stay out of sunlight and tanning booths until the tattoo is healed, at least 2/3 weeks. Do not soak the tattoo in tub, sauna, jacuzzi or go swimming while your new tattoo is healing. Showers are fine.
- 7.Do not rub or pick the treated area while is healing. Loss of color and/or infection could occur. Extreme sun and exposure over the years can and will fade your tattoo. This can be minimized by using a strong sunscreen, at least SP25.
- 8.Your tattoo should heal in 2/3 weeks. In case of extreme redness, swelling, bleeding, change in color or pain, always contact your doctor immediately.
- 9.Do not listen to your friends about the healing process of the tattoos!

If you have any further questions, please feel free to contact us or visit the shop. You will be always welcome!
