

POTATO EUROPE

NETHERLANDS 2021

1. Science and research

- 1.1 Relevant public authorities
- 1.2 Research institutes
- 1.3 Schools and universities

2. Potato cropping

- 2.1 Cultivation methods, integrated and ecological methods
- 2.2 Cultivation consultants / extension services

3. Breeding and crop management

- 3.1 Potato breeding, seed and planting material
- 3.2 Fertilizers, plant strengtheners, soil additives
- 3.3 Plant protection, plant protection agents and treatment agents, cleaning agents

4. Specific machinery and equipment for potato production

- 4.1 Soil separation
- 4.2 Seed-bed preparation and planting
- 4.3 Machinery and equipment for cultivation, plant protection and fertilizing
- 4.4 Steering systems
- 4.5 Irrigation
- 4.6 Lifting
- 4.7 Taking on and storing potatoes
- 4.8 Transportation

5. Machinery for harvest preparation and storage

- 5.1 Machinery and equipment for potato conditioning and storage containers
- 5.2 Machinery and equipment for storing and ventilation
- 5.3 Machinery and equipment for Lifting, Loading and outsourcing
- 5.4 Machinery and equipment for sorting and conveying
- 5.5 Machinery and equipment for packaging, packa- ging technology
- 5.6 Cleaning equipment
- 5.7 Spare and replacement parts for production, processing and storage

6. Machinery for Potato processing

- 6.1 Processing equipment and facilities
- 6.2 Measuring, control and weighing equipment
- 6.3 Analysis equipment
- 6.4 Packaging equipment
- 6.5 Refrigerating and freezing equipment

POTATO EUROPE

NETHERLANDS 2021

7. Management, Marketing, Services

- 7.1 Processing
- 7.2 Trade, potato bourse and direct marketing
- 7.3 Quality assurance systems and Certification
- 7.4 Documentation, electronic data processing and agricultural software
- 7.5 Financial services and insurances
- 7.6 Market research, Media and publishing companies
- 7.7 Safety equipment

8. Agricultural organizations

- 8.1 Associations
- 8.2 Federations
- 8.3 Producer association
