

MAINLAND CHINA TRANSFORMER FACTORIES MAP

March 2025

© STATEMENT OF CONFIDENTIALITY

This presentation and supporting materials contain confidential and proprietary business information of Sinovoltaics Group Limited.
These materials may be printed or photocopied for use in evaluating the proposed project, but are not to be shared with other parties.

ABOUT US

Since 2009, Sinovoltaics, a Dutch-German solar PV and BESS technical compliance and quality assurance service firm has been a pioneer in the solar photovoltaic and BESS industries.

With our AI-based SELMA software, BESSEntial and industry leading Zero Risk Solar & BESS® guarantee, our mission is to eliminate all PV & BESS product defects, enabling investors and the world to succeed with minimal investment risks.

We have inspection teams located in Mainland China, Vietnam, Thailand, India, Türkiye, and the United States. They are ready to visit your supplier factory.

INTRODUCTION

Sinovoltaics Mainland China Transformer Factories Map

Dive into the heart of the solar and energy storage industry, exploring the latest maps showcasing existing transformer factories.

Key Features:

- **Region-Specific Maps:** Tailored for each thriving transformer market.
- **Manufacturer Directory:** Access up-to-date information on transformer manufacturers operating in each region. Stay ahead of the curve by understanding the key players in each market.
- **Comprehensive Updates:** Our dedicated team ensures that the transformer maps are refreshed yearly, offering the latest information on evolving market dynamics.

Sinovoltaics' Mainland China Transformer Factories Map empowers you with the knowledge needed to navigate the global solar and storage landscape effectively. Download the latest maps now and stay ahead in the race to harness the potential of solar energy.

March 2025

The Sinovoltaics Mainland China Transformer Factories Map

- High-voltage transformers are crucial for solar PV projects. According to NREL, transformers may have up to 2-year lead times and have seen a four-fold increase in prices since 2022; knowing the playing field and who the players are is of critical importance.
- This first version of the Sinovoltaics Mainland China Transformer Factories Map has been launched to give an overview of the different companies manufacturing transformers in Mainland China.
- The current market press releases and data indicate that there are 128 companies manufacturing transformers in Mainland China. The more well-known transformer companies like ABB, Siemens, and TBEA have sites in Mainland China, but also lesser known ones have been mapped in this report.
- Contact details have been included so that contact can be made. Sinovoltaics is your QA/QC partner in providing zero-risk inspection services of these transformer manufacturing sites and their end-product.

ARE YOU A TRANSFORMER MANUFACTURER?

In our next edition of the Mainland China Transformer Factories Map, we aim at listing how procurement stakeholders can contact each factory.

Do not hesitate to reach out at contact@sinovoltaics.com so we can list your contact details.

Also, if your transformer manufacturing project is not listed, or has been updated, please contact us and share your latest ambitions. We will include it in our next release.

Confident in your transformer's quality?

Here's how **SINOVOLTAICS** assures it:

- **Contract Enhancement:** Our team helps refine Transformer contracts to secure top-quality transformers and improve Factory Acceptance Testing (FAT) checklists for better quality assurance at renowned manufacturers.
- **Quality Audit:** Our IRCA-accredited team assesses factories, production lines, and traceability through Quality Audits, ESG Audits, and Traceability Audits, providing insurer-accepted reports.
- **ESG Audit:** Our SA8000 accredited auditors evaluate the suppliers' ESG procedures and its implementation based on multiple ESG frameworks.
- **Traceability Audit:** Our IRCA-accredited audit team will assess the factory and corporate's traceability performances. Our auditors will also evaluate the factory's supplier database and map the suppliers identified for your transformer manufacturing process.
- **Production Monitoring:** Our engineers ensure smooth production and assembly, meeting agreed specifications.
- **Final Acceptance Testing:** Thorough testing before shipment of each transformer according to agreed requirements with detailed inspection reports.
- **Shipping & Storage Review:** Validate transformer packaging, storage, and shipping processes with immediate feedback & reports.

ELIMINATE RISKS AND GUARANTEE PROJECT ROI
