

# SYNCORSE™

## 100% SYNTHETIC 2T RACING ENGINE OIL

### APPLICATION:

For High-Performance 2-stroke racing engines with high RPM. Lubricant is mixable and suitable for use with standard leaded and unleaded gasoline.

### FEATURES:

- Ultimate cylinder and ring protection
- High lubrication power and increased oil film strength
- Keeps engine and exhaust power valves clean and lubricated
- Prevents exhaust power valve and piston ring from sticking
- Superior lubrication under wet race conditions

Product is specially designed for:

- Maximum power output
- Increased acceleration
- Fast throttle response

### ADVANTAGES:

Unique synthetic technology in combination with VROOAM's performance additive technology provides excellent lubrication and power performance at ultra high rpm's. Ultimate engine lubrication and protection, keeps the engine clean and provides less smoke. Provides excellent throttle response due to superb lubrication and low friction. For all racing premix 2-stroke kart racing engines with a mixing ratio as specified by the manufacturer.

### PERFORMANCE:

API TC

**VROOAM® recommends this product for 2-stroke kart racing engines that require the use of a racing approved product:**  
CIK-FIA Homologated

### RECOMMENDATIONS:

Mixing ratio kart racing conditions:	From 1:20 to 1:25 (5% to 4%)
Tuners:	Adjust mixing ratio to your own use or CIK requirement, but not less than 4%.
For racing conditions by professional race-teams:	1:25 (4%).
For extended engine life or for recreational users:	1:20 (5%).
For Rotax kart engine users:	Contact your engine tuner, engine sales point or VROOAM.

MADE IN THE NETHERLANDS
