Sensitive teeth?

Hydrogen Peroxide is a popular ingredient for teeth whitening products. The more peroxide the product contains, the faster and more effectively it will work. Going for a higher dose of Peroxide isn't always the best thing to do if you have sensitive teeth.

Would you like to use a product that comes close to what professionals use? Then try [Crest 3D White Whitestrips Professional Effects](#). These strips are designed with the same safe ingredients that dentists use and remove stains that have accumulated over a period of up to 14 years.

Use: About 30 minutes once a day for a period of 20 days, with results that last up to 12 months!
